From The President’s Desk

Thank you for allowing us to supply your past, present and future plant material needs. As you can see, we have made some changes to our catalog. Our current catalog has more pictures than ever before and we have added helpful symbols to the plant descriptions. Also, we decided not to include prices in the catalog, (there is an inserted price list) so that you can share the pictures and descriptions comfortably with your customers.

Spring rains have replenished ground and surface water supplies in our growing areas. These rains ensure that our recently lined out material have the ideal growing conditions. This year we expanded our Proven Winners line of woody ornamentals and have increased our selection of native plant material. Our unprecedented availability of field and container grown material enables you to offer a complete palette of services and plant material throughout all the seasons.

Quality, value and service, the three core tenants of our business philosophy, are designed to attract and most importantly, retain satisfied customers. If you are a first time buyer or just haven’t had the opportunity, please come visit and see what we are all about. The salesperson for your geographic area will happily arrange a tour of our growing and shipping facilities.

The 2013-2014 season promises to be optimistic for the green goods industry. World events are encouraging consumers to stay closer to home and put more time, effort and money into their businesses/residences. Call us to take advantage of our positioning in container and field grown material. Your success is important to us.

Thanks again for your confidence in allowing us to be your supplier of choice. If any aspect of your purchasing experience can be improved upon, do not hesitate to contact us.

William E. Quillen
President

How To Use This Catalog

This catalog is divided into five sections: Woody Ornamentals, Ground Covers, Perennials, Ornamental Grasses, and Ferns. Plants are listed under these five headings by their scientific name. We have also included the common name, the average height and width, the plant hardiness zone, a brief description, and symbols to help with decision making.

<td>Ilex crenata “Compacta”</td>
<td>“Compacta” Japanese Holly</td>
<td>[6’ x 8’] Zone 6</td>
<td>An often-used, compact form of Japanese Holly that grows slowly and densely. “Compacta” grows broader than tall, and its branches are slightly ascending.</td>
</tr>
</tbody>
</table>

These symbols are provided as a guide only. Please check with your local extension agent for information regarding your area.
Hours of Operation

Monday - Friday
7:00 AM - 4:30 PM

Please call and make an appointment before coming to visit so that we can be prepared to help you with your plant material needs.

Closed Saturday and Sunday

Pick-up Orders

Please call and schedule a pick-up appointment with our shipping coordinator. Scheduling your pick-up time helps us get your plants loaded with a minimum of waiting.

Shipping

Please contact our shipping coordinator to schedule delivery and get a quote on freight charges. We can provide delivery for you by our own trucks or obtain the services of reliable private carriers to keep the cost at a minimum for you.

Loading Hours

Monday - Friday
7:00 AM - 12:00 PM & 12:30 PM - 3:30 PM

Please check in at the front office before loading.

Directions

From I-81
- Take I-64 East to Exit 94
- Turn left on Rt. 340
- Go approx. ½ mile and turn left on Rt. 631
- Go approx. 1 mile and turn right on Rt. 664
- We are located ½ mile on the right

From Richmond
- Take I-64 West to Exit 96
- Turn left on Rt. 624
- Go approx. 2½ miles and turn right on Rt. 664
- We are located 1 mile on the left

Terms and Conditions of Sale

Terms: All customers are considered C.O.D. until credit is approved and terms are established. C.O.D. orders require a 25% deposit before the order is booked.

Overdue Accounts: Overdue accounts are subject to a 1½% per month (18% per annum) finance charge plus cost of collection, if any, unless other arrangements have been approved in writing prior to booking an order. Accounts are overdue after 30 days.

Payment Options: Cash, Check, Visa or Mastercard. Pick-up customers with checks require photo ID. All sales are final.

Catalog Prices: These wholesale prices are applicable to registered nurserymen and dealers based on present market conditions and may change without notice. Prices herein listed are F.O.B. Waynesboro Nurseries, Inc., Waynesboro, VA. Specimen stock selected by customers here at the nursery will be charged according to its value.

Minimum Orders: We request the minimum order be at least $200.00 for pick-ups and $600.00 for deliveries. Please contact your salesperson to receive details about delivery to your area.

Cancellation of Orders: Once an order is booked, any cancellation must be received before the expected digging date. If an order is already in process, we expect you to receive it. A 25% re-stocking fee may be charged in certain situations.

Shipping: Please provide proper shipping instructions with your order so it will not be delayed. We are not responsible for loss, damage, or delay when shipment is made by carriers other than our own. We can provide delivery for you by our own trucks or obtain the services of reliable private carriers to keep the cost at a minimum for you.

Shipping Dates & Charges: Please contact our shipping coordinator to schedule delivery and get a quote on freight charges. Pick-up Orders: Please call in and schedule a pick-up appointment with our shipping coordinator. Scheduling your pick-up time helps us get your plants loaded with a minimum of waiting.

Conditions of Pick-up Orders: If material is not picked up within 7 days after being notified it is ready, Waynesboro Nurseries, Inc. will not be responsible for the plant material. An additional charge may be added for holding plant material past the 7-day period.

Covering Material: Please bring along suitable covering to protect your material in transit. Sheeting can be provided at an additional cost.

Caution: All materials offered subject to prior sale. We accept all orders subject to crop conditions and on condition that same shall be void should injury befall our stock from hail, fire, frost, error in count, or other cause beyond our control. All orders are accepted without liability for non-performance if labor shortage or delay in transportation should prevent us from making delivery.

 Guarantee of Genuineness: If any nursery stock proves to be untrue to description of variety name under which it is sold, we hold ourselves in readiness, upon proper proof, to replace such nursery stock or refund the original amount paid. We shall in no case be liable for any sum greater than the amount originally received for said nursery stock. We give no guarantee, expressly or implied, as to life or productiveness of any nursery stock sold at these wholesale prices.

Claims: Errors made by us will gladly be corrected. Claims for any cause must be made promptly upon receipt of plant material. We will not entertain claims after goods have been accepted or when written report is not made within 6 days after arrival of stock.

**Prices, Terms and Policies are subject to change without notice.**
Discount Program

The discount program is for our customers that purchased and received over $15,000 in plant material and pay their invoices within 30-day terms. Once approved, the discount to be received is based on the dollar volume of the plants purchased October 1st through September 30th of the preceding fiscal year.

Our discount structure is as follows:

<table>
<thead>
<tr>
<th>Volume of Business</th>
<th>Discount</th>
</tr>
</thead>
<tbody>
<tr>
<td>$15,000-24,999</td>
<td>Lowest rate in catalog</td>
</tr>
<tr>
<td>$25,000-49,999</td>
<td>Lowest rate in catalog Less 5%</td>
</tr>
<tr>
<td>$50,000-up</td>
<td>Lowest rate in catalog Less 10%</td>
</tr>
</tbody>
</table>

Once you are in the program you may obtain increasing discount levels by purchasing more during the year. This discount will apply to future invoicing. Freight and tax charges will not be counted towards your volume of business.

All specials and re-wholesaled plants will be sold at net pricing (no discounts), but will count toward your annual volume discount level.

Customer shall waive the right to participation in this program if payments are not made within terms. Prices may revert to the appropriate catalog prices on overdue accounts. A Credit Application must be filled out and approved if your company is going to be enrolled in this program.

Color Tags

We can provide hang tags or pot tags depending on the type of plant material you purchase.

Let our plant tags sell the plant for you! Customers will be able to see what the plant will look like in bloom, read about mature size, and check sun, soil and zone requirements.

Please ask about pricing.
Dig all Summer... Sell all Summer... Transplant all Summer!

What is Bio-Plex®?
Bio-Plex® Concentrate is a liquid biostimulant complex of plant vitamins, hormones, amino acids, nutrient chelators, plant growth regulators, “root-specific” growth stimulators, and micro-nutrients, formulated with a “state-of-the-art” non-phytotoxic tissue and soil penetrant.

This unique concentrated organic complex has multiple beneficial uses within the nursery industry. Applied according to label, Bio-Plex® Concentrate exhibits extreme plant STRESS REDUCTION properties, as well as numerous ROOT SPECIFIC properties influencing aggressive root development and plant root establishment.

**BIO-PLEX® CONCENTRATE**
- 1 Gallon
- 6 Gallon Mini Drum

**BIO-PLEX® FERTILIZER PLANTING TABLETS**
- 20-10-5 21 gram tablets 2 year release case of 500
- 12-8-8 Organic Fertilizer tablets  1 year release case of 750
- Mycorrhizae 5 gram tablets case of 2100

**BIO-PLEX® 5 in 1 PLANTING GRANULES**
- 7 lb box
- 50 lb box

**TREE RINGS**
(Used to irrigate or Bio-Plex® plant material )
- Capacity - 25 gallons Drip Time - 6-8 hours
- Maximum Tree Diameter 8” & Height 10”
- Construction - HDPE/UV Resistant
- Color - Black Weight 7 lbs
- Life Expectancy 3-10 years
  (Minimum 300-500 uses)

**Nursery & Landscape Supplies**
We also carry a number of supplies for your convenience.
Including stakes, arbor tie, burlap, rope, etc.
Please check our current price list for availability and prices.
Waynesboro Nurseries History

“Poor stock is costly at any price and an experienced planter will not buy it.” These are the words of our founder, E. M. Quillen.

After purchasing Titus Nurseries around 1930, Mr. Quillen put these words, and his hands, to some good use. Blessed with the rich soils and moderate climates of Virginia’s beautiful Shenandoah Valley, Mr. Quillen went to work. He changed the name to Waynesboro Nurseries, and then created a thriving, multi-faceted business based on this solid principle. We have continued to grow and change in his footsteps, right along with the demands of a growing and changing marketplace. We have increased our production facilities from 15 acres of rented land in 1922, to having over 1,200 acres devoted to raising nursery stock today. We have expanded our product mix to include over 500 varieties of ornamentals.

We have also been through a number of different enterprises on our journey. As the scenic Skyline Drive and Blue Ridge Parkway became a major tourist thoroughfare, Waynesboro Nurseries operated two retail locations within minutes of these highways, and did so right into the 1960’s. Just after World War II, when more Americans owned homes than ever before, Waynesboro Nurseries added a catalog division and became one of the largest and most recognized mail order houses on the continent. The scope of our undertaking is more focused today. We grow, sell, and ship quality nursery stock to landscape contractors, re-wholesalers, and garden centers throughout the Mid-Atlantic States. But as always, E. M. Quillen put it best: “It is not so much what the customer pays, as what he gets for what he pays, that determines his degree of satisfaction.”
Abelia grandiflora  
**Glossy Abelia**

[6’ x 6’] Zone 6

A semi-evergreen, dense, rounded, multi-stemmed shrub with arching branches. It has glossy, dark green leaves with white, fragrant, funnel shaped flowers.

Abelia grandiflora “Bronze Anniversary™”

**“Bronze Anniversary™” Abelia**

[3’ x 3’] Zone 6

(PPAF) Unique bronze-orange leaves mature to an attractive lime-gold with white bellflowers in the Spring. Season long color. Often reblooms.

Abelia grandiflora “Little Richard”

**“Little Richard” Abelia**

[3’ x 3’] Zone 5

A true dwarf, compact Abelia with glossy, dark green leaves with white, fragrant, funnel shaped flowers in Summer.

Abelia grandiflora “Sunshine Daydream”

**“Sunshine Daydream” Abelia**

[3’ x 3’] Zone 6

(P.P. 20961) Orange, red and bronze foliage with cream variegated margins makes this a winner! Fragrant, white blooms with rosy tones bloom all Summer. This compact, evergreen shrub is heat and drought tolerant.

Abelia x “Edward Goucher”

**“Edward Goucher” Abelia**

[5’ x 5’] Zone 6

A hybrid between Abelia grandiflora and schumannii which grows flatter than grandiflora and offers a more lavender-pink blossom from late May until frost.

Abies concolor  
**Concolor Fir or White Fir**

[50’ x 30’] Zone 4

A medium-sized pyramidal evergreen tree with bluish-silver needles, this plant creates an effect in the landscape similar to Blue Spruce, but softer.
Woody

Acer buergerianum

Trident Maple

[25’ x 25’] Zone 5

This small tree has glossy, dark green leaves that turn various shades of red, yellow and orange in the Fall. A good selection for tight areas where a slow-growing, compact tree is needed.

Acer campestre “Evelyn”

Queen Elizabeth™ Maple

[35’ x 30’] Zone 5

A Schmidt introduction, selected for its outstanding vigor, its lush, dark green leaves, and its neat growth habit.

Acer campestre “Metro Gold®”

“Metro Gold®” Hedge Maple

[35’ x 20’] Zone 5

This upright, narrow oval cultivar has a tighter shape than Queen Elizabeth™. It produces fewer seeds than typical and has an improved, bright yellow Fall color. An excellent street tree selection.

Acer campestre “Stgrezam”

St. Gregory® Hedge Maple

[30’ x 30’] Zone 5

Vigorous, pyramidal grower with a strong central leader. New foliage is a reddish-green that turns to a rich dark green. An excellent drought-tolerant street tree.

Acer ginnala “Betzam”

Beethoven™ Amur Maple

[25’ x 15’] Zone 4

A tightly-branched and narrow, columnar form. Has bright red samaras that complement the large, deep hunter-green foliage. Fall foliage is red and gold.

Acer ginnala “Flame”

“Flame” Amur Maple

[15’ x 15’] Zone 3

Exceptional hardiness, fragrant, showy flowers, abundant magenta fruits, and wine-red Fall color make this Maple a spectacular ornamental. Use as a small patio tree, or for screening.

</tbody>
</table>
**Woody**

**Acer palmatum atropurpureum**

**Redleaf Jap. Maple**

[20’ x 20’] Zone 5

Graceful deciduous tree displaying star-like reddish-purple leaves. Brilliant red Fall color.

**Acer platanoides “Crimson King”**

**“Crimson King” Norway Maple**

[45’ x 40’] Zone 4

Norway Maple variety that maintains a rich red, glossy foliage. Provides deep shade and maintains its red foliage all Summer long.

**Acer platanoides “Crimson Sentry”**

**“Crimson Sentry” Maple**

[25’ x 15’] Zone 4

A very compact, slow-growing, dense tree with deep purple foliage. Originated as a bud sport from “Crimson King.”

**Acer rubrum**

**Scarlet Maple**

[60’ x 50’] Zone 4

Conspicuous red flowers in the Spring are followed by light green foliage which can turn to a spectacular scarlet in the Fall. Silver-gray bark provides good Winter interest.

**Acer rubrum “Armstrong”**

**“Armstrong” Red Maple**

[60’ x 15’] Zone 3

Stately fastigiate form of Red Maple. Good for streetscapes and as an accent plant.

**Acer rubrum “Autumn Flame®”**

**“Autumn Flame®” Maple**

[50’ x 50’] Zone 4

This cultivar produces purplish-red Fall foliage. Somewhat slower in growth habit than some of the other Red Maples, it is first to color in the Fall.
Acer rubrum “Brandywine”  
“Brandywine” Red Maple  
[50’ x 35’] Zone 4

A National Arboretum introduction with deep red Fall color produced 10 days later than most Red Maples. This seedless variety has a moderately columnar crown.

Acer rubrum “Burgundy Belle”  
“Burgundy Belle” Maple  
[45’ x 35’] Zone 4

The compact oval crown on this tree is extremely uniform. The medium to dark green foliage will turn an intense red changing to burgundy in the Fall.

Acer rubrum “Frank Jr.”  
Redpointe® Maple  
[45’ x 30’] Zone 5

(P.P. 16769) A variety that combines the attributes of the best Red Maple cultivars with the fast growth of the hybrid varieties. Naturally maintains a central leader with strong branch angles. Leaves are dark green changing to dark red in the Fall.

Acer rubrum “October Glory®”  
“October Glory®” Maple  
[50’ x 50’] Zone 4

The most popular Red Maple cultivar has foliage that turns a uniform crimson-red in the Fall. Has an evenly-rounded head and lustrous foliage that persists late.

Acer rubrum “Red Sunset®”  
“Red Sunset®” Maple  
[50’ x 40’] Zone 3

One of the best Red Maple cultivars. Fall foliage is showy orange-red. This tree has a shapely, oval head with silver-gray Winter bark.

Acer saccharum  
Sugar Maple  
[60’ x 45’] Zone 4

A respected American shade tree, the Sugar Maple has a majestic, upright form, and brilliant orange-to-yellow Fall color.
Acer saccharum “Bonfire"
“Bonfire” Sugar Maple

This Sugar Maple was selected for its shiny green leaves which turn a dazzling carmine-red in the Fall. Vigorous growth and heat tolerance have also been observed.

Acer saccharum “Commemoration"
“Commemoration” Sugar Maple

A reliable shade tree that grows quickly into a well-rounded, dense canopy of glossy, dark green leaves. Early Fall color is orange, red and yellow.

Acer saccharum “Endowment"
“Endowment” Sugar Maple

(P.P. 4654) A columnar Sugar with a compact cylindrical head, rapid growth, and scorch-free dark green Summer foliage changing to orange-red in the Fall.

Acer saccharum “Fall Fiesta®"
“Fall Fiesta®” Sugar Maple

(P.P. 11119) An upright rounded tree with rapid growth rate and a full, symmetrical branching habit. Summer foliage is thick, leathery, glossy green; Fall colors are yellow, orange and red. Resistant to sun scald and frost cracks. Resistant to leaf tatter and leaf hopper damage.

Acer saccharum “Green Mountain®"
“Green Mountain®” Sugar Maple

Uniform plant with upright oval crown. Dark green foliage which turns shades of orange and scarlet in the Fall. Due to its drought and heat tolerance, it is a good Southern selection.

Acer truncatum x platanoides “Keithsform”
Norwegian Sunset® Maple

(P.P. 7529) A fine variety which exhibits leathery, dark green foliage turning to showy orange-red in the Fall. As this plant is heat and drought resistant, it should be specified for urban use where a tough, small-scale shade tree is needed.

</tbody>
</table>
Aronia melanocarpa “Viking”  
“Viking” Chokeberry  
[4½’ x 4½’] Zone 3

Developed in Europe as an orchard plant, this award-winning shrub offers not only earlier fragrant Spring flowers, but also glossy Summer foliage, superb red Fall color and large persistent black berries.

Aronia melanocarpa var. elata  
Glossy Black Chokeberry  
[4’ x 4’] Zone 3

A compact rounded shrub with white flowers in May. Black fruit persists well into Winter. Superior to the straight species in its quality of foliage, flowers and fruit. Adapts to wet or dry sites.

Azalea “Gumpo Pink”  
“Gumpo Pink” Azalea  
[2’ x 3’] Zone 5

Low-growing. Soft pink petals, compact plant, late bloomer.

Azalea “Gumpo White”  
“Gumpo White” Azalea  
[2’ x 3’] Zone 5

Low-growing. Large white flowers, compact plant, late bloomer.

Azalea “Joga”  
“Joga” Azalea  
[2’ x 3’] Zone 5

Low-growing. Light pink to light purple flowers, compact plant, late bloomer.

Azalea Bloom-A-Thon® Red  
Bloom-A-Thon® Red Azalea  
[3’ x 4’] Zone 6

(P.P. 21562) Large flowers appear in April, then rebloom in early July, continuing through Fall until hard frost. The evergreen foliage is disease resistant, and maintains excellent color year-round.
Azalea Encore® Autumn Empress™

Autumn Empress™ Encore® Azalea

(P.P. 12109) Dense evergreen foliage, medium pink semi-double flowers. Blooms in early Spring and then again in mid-Summer.

Azalea Encore® Autumn Sangria™

Autumn Sangria™ Encore® Azalea

(P.P. 15077) Dense evergreen, 3½” single dark pink blooms. Early Spring flowers with re-blooming in mid-Summer.

Azalea Encore® Autumn Twist™

Autumn Twist™ Encore® Azalea

(P.P. 12133) Fast-growing evergreen, white and purple striped blooms with an occasional solid purple. Re-bloomer, flowering both in early Spring and in mid-Summer.

Azalea satsuki “Chinzan”

“Chinzan” Azalea

Low-growing. Warm pink flowers, very compact, late bloomer.

Azalea x “Girard’s Crimson”

“Girard’s Crimson” Azalea

Evergreen. Large crimson flowers, medium grower.

Azalea x “Girard’s Rose”

“Girard’s Rose” Azalea

Evergreen. Large rose to deep pink flowers, medium grower.
Azalea x “Girard’s Pleasant White”  
“Girard’s Pleasant White” Azalea  
[3’ x 4’] Zone 5

Evergreen. Large white flowers, late bloomer, medium grower.

Azalea x “Hershey’s Red”  
“Hershey’s Red” Azalea  
[3’ x 4’] Zone 5

Azalea x “Hino-Crimson”  
“Hino Crimson” Azalea  
[3’ x 4’] Zone 5

Evergreen. Salmon-red, early compact grower.

Azalea x “Karen”  
“Karen” Azalea  
[3’ x 4’] Zone 5

Evergreen. Early lavender flowers, medium grower.

Azalea x “Robin Hill Congo”  
“Robin Hill Congo” Azalea  
[3’ x 4’] Zone 5

Evergreen. Vivid reddish-purple flowers on a dwarf spreading plant.

Azalea x “Rosebud”  
“Rosebud” Azalea  
[3’ x 4’] Zone 5

Evergreen. Rose-like buds open to double 1¾” rosy-pink flowers late May through June.
### Azalea x “Tradition”  
#### “Tradition” Azalea
[3’ x 4’] Zone 5

### Berberis julianae  
#### Wintergreen Barberry
[6’ x 6’] Zone 5

An evergreen plant with broad, dark green leaves which turn to bronze during Winter. Yellow flowers in Spring, followed by purple berries in the Fall. Often used for pedestrian traffic control.

### Berberis thunbergii “Aurea Nana”  
#### Dwarf Golden Barberry
[3’ x 3’] Zone 4

Gold foliage turns to a coppery color in the Fall. Small deciduous shrub, good for use as specimen and foundation plantings.

### Berberis thunbergii “Helmond Pillar”  
#### “Helmond Pillar” Barberry
[4½’ x 1½’] Zone 4

Distinct erect and narrow form with reddish-purple leaves that turn brilliant red in Autumn. Deciduous.

### Berberis thunbergii “Maria”  
#### Sunjoy® Gold Pillar Barberry
[3½’ x 1½’] Zone 4

(P.P. 18082) Distinct erect and narrow form with a shape similar to “Helmond Pillar” Barberry. Bright golden foliage and red new growth. Burn-resistant yellow foliage turns bright orange-red in Fall. Deciduous.

### Berberis thunbergii “Marshall’s Upright”  
#### “Marshall’s Upright” Barberry
[4’ x 2½’] Zone 4

Brilliant burgundy foliage and bright red berries make an attractive shrub; its very upright habit makes it an excellent compact thorny hedge.

</tbody>
</table>
Berberis x gladwynensis “William Penn”  [4’ x 4’] Zone 6
“William Penn” Barberry

Popular dwarf evergreen Barberry that is an excellent plant for low hedges. Sun or partial shade.

Betula nigra “BNMTF”  [60’ x 40’] Zone 3
Dura Heat® River Birch

Pyramidal to oval tree with exfoliating bark which exposes the brown underlayer. Dark green foliage turns yellow in the Fall. More heat tolerant.

Betula nigra “Heritage”  [50’ x 50’] Zone 4
“Heritage” River Birch

A selection which has proven to be more vigorous and more ornamental than the species. Exfoliating bark reveals a light mauve and white interior which darkens to a brownish-red with age. A superior Birch suited for Southern planting.

Betula platyphylla “Whitespire”  [30’ x 15’] Zone 4
“Whitespire” Asian White Birch

The only borer-resistant Asian White Birch. Grows into a distinct spire-like form. Exceptional heat tolerance, deep green leaves, and powdery white, non-exfoliating bark, all make this an exceptional choice for a specimen or grouping.

Buddleia davidii “Adonis Blue™”  [5’ x 5’] Zone 5
“Adonis Blue™” Butterfly Bush

(CPAF) This selection from the compact English Butterfly™ Series is extra bushy and loaded with 8 - 10” long, fragrant, deep blue flowers from Summer into Fall. Silvery green deciduous foliage.

Buddleia davidii “Charming”  [10’ x 5’] Zone 5
“Charming” Butterfly Bush

This flowering shrub features lilac-like pink flowers 4 - 10” long from July to frost. It can be very successful in mass plantings.
**Woody**

**Buddleia davidii “Lochinch”**  
“Lochinch” Butterfly Bush  
[10’ x 5’] Zone 5

This flowering shrub features lilac-like lavender-blue flowers 4 - 10” long from July to frost. It can be very successful in mass plantings.

**Buddleia davidii “Nanho Purple”**  
“Nanho Purple” Butterfly Bush  
[10’ x 5’] Zone 5

This flowering shrub features lilac-like magenta-purple flowers 4 - 10” long from July to frost. It can be very successful in mass plantings.

**Buddleia davidii “Peakeep”**  
Peacock™ Butterfly Bush  
[5’ x 5’] Zone 5

(CBR #2637) Dwarf, extremely bushy and loaded with colorful, rich 10 - 12” pink blooms. Use these plants from the English Butterfly™ Series in smaller gardens and mixed borders.

**Buddleia davidii “Pyrkeep”**  
Purple Emperor® Butterfly Bush  
[5’ x 5’] Zone 5

(CBR #2637) A compact Butterfly Bush with a bushy growth habit and purple flowers Summer to Fall. Gray-green foliage and 4 - 10” flower spikes. Another great choice from the English Butterfly™ Series.

**Buddleia davidii “Royal Red”**  
“Royal Red” Butterfly Bush  
[10’ x 5’] Zone 5

This flowering shrub features lilac-like purple-red flowers 4 - 10” long from July to frost. It can be very successful in mass plantings.

**Buddleia davidii “White Profusion”**  
“White Profusion” Butterfly Bush  
[10’ x 5’] Zone 5

This flowering shrub features lilac-like white flowers 4 - 10” long from July to frost. It can be very successful in mass plantings.
Buddleia x Lo & Behold® “Blue Chip”  
“Blue Chip” Lo & Behold® Butterfly Bush  
[3’ x 3’] Zone 5

Buddleia x Lo & Behold® “Ice Chip”  
“Ice Chip” Lo & Behold® Butterfly Bush  
[2’ x 3’] Zone 5

A dwarf, wide-spreading plant with pure white flowers against silvery foliage. It is seedless and continuous blooming. Its neat, low spreading habit makes it the perfect ground covering plant.

Buddleia x Lo & Behold® “Purple Haze”  
“Purple Haze” Lo & Behold® Butterfly Bush  
[3’ x 5’] Zone 5

Uniquely horizontal branches produce an abundance of dark purple-blue flowers. The flowers radiate outward and downward like a pinwheel, and are continuous from mid-Summer to frost. Non-invasive.

Buxus microphylla “Wedding Ring™”  
“Wedding Ring™” Boxwood  
[2’ x 2’] Zone 5

(PPAF) Foliage sports crisp lime-green margins that mature to gold as the Summer progresses. Forms a mounded dense shrub.

Buxus microphylla japonica “Green Beauty”  
“Green Beauty” Boxwood  
[3’ x 3’] Zone 5

A fine plant for foundations, edging or low hedges; it exhibits the excellent compact form of the species, but with better color through the Winter and in the heat of Summer.

Buxus sempervirens  
American Boxwood  
[15’ x 15’] Zone 5

Often referred to as Standard Boxwood because of its general use. It is a relatively fast grower with slender, pointed, dark green evergreen leaves.
Buxus sempervirens “Dee Runk”
“Dee Runk” Boxwood

An excellent upright cultivar, grown for both its form and its ability to thrive in a variety of site conditions. Slightly narrower but very similar to “Fastigiata”.

Buxus sempervirens “Elegantissima”
“Elegantissima” Variegated Boxwood

A compact, dense, mounding, slow-growing shrub with cream-margined evergreen foliage.

Buxus sempervirens “North Star™”
“North Star™” Boxwood

(P.P. 15988) A hardy, dense globe that requires little if any pruning to form a low, dense, thick hedge. Shiny dark leaves maintain good Winter color.

Buxus sempervirens “Suffruticosa”
Dwarf English Boxwood

A slow-growing, compact evergreen shrub, used extensively as a low edging in formal gardens. Also planted as a specimen.

Buxus sempervirens “Vardar Valley”
“Vardar Valley” Boxwood

A deer-resistant evergreen with a broad spreading habit that has dark bluish-green foliage. This very hardy variety maintains its leaf color very well throughout the Winter.

Buxus x “Green Gem”
“Green Gem” Boxwood

This dwarf, slow-growing Boxwood is noted for its globular shape and good green Winter color. Needs very little pruning.
**Buxus x “Green Mountain”**

“Green Mountain” Boxwood

| [5’ x 3’] Zone 4 |

This evergreen has dark green leaves which retain their color through the Winter; creates a good hedge with its upright cone shape.

**Buxus x “Green Velvet”**

“Green Velvet” Boxwood

| [3’ x 3’] Zone 4 |

**Callicarpa bodinieri “Profusion”**

“Profusion” Beautyberry

| [8’ x 8’] Zone 6 |

Abundant violet-colored fruits and unusual purplish-green leaves in the Fall make this arching bush a fabulous addition to any landscape design.

**Calluna vulgaris “Blazeaway”**

“Blazeaway” Scotch Heather Shrub

| [12” x 18”] Zone 4 |

**Calycanthus floridus**

Common Sweetshrub or Carolina Allspice

| [8’ x 8’] Zone 4 |

A lush, deciduous, native flowering shrub that produces a fragrant, maroon spike-like blossom with a yellow center in May. It is trouble-free, transplants well, and makes an excellent addition to the shrub border.

**Calycanthus floridus “Aphrodite”**

“Aphrodite” Sweetshrub

| [7’ x 6’] Zone 5 |

A new, improved Calycanthus with large, bright red, super fragrant, magnolia-like flowers. This re-bloomer has nice, glossy foliage.
Carpinus betulus “Fastigiata”  
**Pyramidal European Hornbeam**  
[35’ x 25’] Zone 4  
Often used in Europe to line long corridors and driveways, this tree provides a formal, vertical look. Its tight branching pattern adds to Winter interest.

Carpinus betulus “Frans Fontaine”  
**“Frans Fontaine” European Hornbeam**  
[35’ x 18’] Zone 4  
A fastigiate form of European Hornbeam with dark green foliage turning yellow in the Fall. It is disease and pest resistant, and tolerant of difficult conditions.

Carpinus caroliniana  
**American Hornbeam**  
[25’ x 25’] Zone 3  
Interesting native tree with a “muscled” appearance in the trunk and branching. Transplants best in Spring. Good for wet sites. Blue-green foliage, turning orange-scarlet in Fall.

Caryopteris x clandonensis “Longwood Blue”  
**“Longwood Blue” Blue Mist Shrub**  
[3’ x 4’] Zone 5  
Powder-blue flowers bloom in late Summer and Fall amid silvery-gray foliage. Treat as a perennial and cut back to the ground each Winter. Blooms on new growth. Attracts butterflies.

Cedrus atlantica “Glaucà Pendula”  
**Weeping Blue Atlas Cedar**  
[15’ x 15’] Zone 6  
Branches are gracefully pendulous with fantastic powder blue color. It looks great when staked upright and then allowed to flow downward like a stream over a waterfall.

Celtis occidentalis  
**Common Hackberry**  
[50’ x 50’] Zone 3  
Adaptable to a wide variety of adverse conditions, wet or dry, acidic or alkaline. Good choice for urban conditions.
Cephalanthus occidentalis “Sputnik”  
“Sputnik” Buttonbush  
[10’ x 8’] Zone 5

A large-flowered, long-blooming selection of our native buttonbush. Attractive light pinkish-white spherical flower heads in mid-Summer. It has a nice form and glossy foliage.

Cephalotaxus harringtonia “Duke Gardens”  
“Duke Gardens” Japanese Plum Yew  
[4’ x 5’] Zone 6

An attractive evergreen shrub with dark green needles. An extremely deer resistant alternative to the common Yew. Useful as a foundation plant or en masse. Tolerant of all light conditions from shade to full sun.

Cephalotaxus harringtonia “Fastigiata”  
“Fastigiata” Japanese Plum Yew  
[8’ x 5’] Zone 6

An evergreen, coniferous shrub with a vase-shaped form. Heat and shade tolerant and deer resistant. Long branches originate near the base, point straight up, and are held tightly together. The leaves are bent downward and arranged in spiral radiating whorls.

Cercis canadensis  
Eastern Redbud  
[25’ x 25’] Zone 4

This popular, small native tree is useful in a natural setting, and as a specimen. Blooms rose-pink flowers in early Spring. Partial shade is helpful.

Cercis canadensis “Ace of Hearts”  
“Ace of Hearts” Dwarf Redbud  
[9’ x 12’] Zone 5

(P.P. 17161) A dwarf, compact tree with light purple flowers, small, semi-glossy, heart-shaped leaves and a dense, dome-shaped canopy.

Cercis canadensis “Covey”  
Lavender Twist™ Weeping Redbud  
[10’ x 8’] Zone 5

This weeping, deciduous, flowering tree is tolerant to most soil conditions. It blooms from late Winter through early Spring with pink to rose-mauve color flowers.
Cercis canadensis “Forest Pansy”  
“Forest Pansy” Redbud  
[25’ x 20’] Zone 6
Currently fashionable due to its striking purple foliage, “Forest Pansy” also blooms later and darker than the species. Beautiful as a specimen or a color accent.

Cercis canadensis “Hearts of Gold”  
“Hearts of Gold” Redbud  
[20’ x 20’] Zone 6
(PPAF) Rose-pink flowers in early Spring make way for the early foliage which is a bright golden-yellow gradually changing to a chartreuse.

Cercis canadensis “JNJ”  
The Rising Sun™ Weeping Redbud  
[12’ x 8’] Zone 5
(PPAF) A spectacular and hardy Spring bloomer, with very showy fuchsia flowers. Beautiful Summer foliage varies between gold, peach, red and light green tones. Great for small landscapes.

Cercis canadensis “Little Woody”  
“Little Woody” Redbud  
[10’ x 8’] Zone 5
(P.P. 15854) A very compact Redbud chosen for its leaf characteristics. The leaves are uniquely crinkly, curled and arranged perfectly along each branch. The new growth is bronze-red in color and the flowers are the typical lavender-purple.

Cercis canadensis “Ruby Falls”  
“Ruby Falls” Weeping Redbud  
[8’ x 8’] Zone 6
(PPAF) Selected for its attractive purple leaf color and weeping growth habit. “Ruby Falls” demonstrates excellent branching, and prolific and attractive reddish-purple flowers.

Chaenomeles Double Take™ “Orange Storm”  
“Orange Storm” Double Take™ Quince  
[4’ x 4’] Zone 5
Rich, brilliantly orange camellia-like, double flowers bloom in early Spring; thornless; no fruit set.
Chaenomeles Double Take™ “Pink Storm”
“Pink Storm” Double Take™ Quince
[4’ x 4’] Zone 5
Intense pink Camellia-like, double flowers bloom in early Spring; thornless; no fruit set.

Chaenomeles Double Take™ “Scarlet Storm”
“Scarlet Storm” Double Take™ Quince
[4’ x 4’] Zone 5
Big, dark red, Camellia-like, double flowers bloom in early Spring; thornless; no fruit set.

Chaenomeles speciosa “O Yashima”
“O Yashima” Flowering Quince
[5’ x 8’] Zone 5
Spectacular pure white flowers are large, doubled and very showy. Forms huge fruit.

Chaenomeles speciosa “Toyo-Nishiki”
“Toyo-Nishiki” Flowering Quince
[6’ x 10’] Zone 5
Upright grower with a combination of pink, white and red flowers on the same branch. Proven one of the most cold hardy clones at the Morten Arboretum.

Chamaecyparis obtusa “Crippsi”
“Crippsi” False Cypress
[8’ x 4’] Zone 4
A broad pyramidal evergreen with golden feathery-textured foliage. This graceful plant makes a good accent plant or specimen.

Chamaecyparis obtusa “Gracilis Compacta”
Compact Hinoki False Cypress
[8’ x 6’] Zone 5
Semi-dwarf evergreen shrub has an attractive pyramidal form with dark green, fan-like foliage. Prefers cool, moist areas and grows in full sun to partial shade.

</table>
### Clethra alnifolia “Ruby Spice”  
**“Ruby Spice” Summersweet**  
[5’ x 5’] Zone 3

An outstanding fragrant garden selection which has rich rose-red flowers that will not fade to white with lustrous, dark green foliage.

- [Native](#)
- [Woody](#)

### Clethra alnifolia “September Beauty”  
**“September Beauty” Summersweet**  
[6’ x 5’] Zone 3

This late flowering, fragrant shrub blooms big white flowers after the species. It has lustrous, dark green foliage with yellow Fall color.

- [Native](#)
- [Woody](#)

### Clethra alnifolia “Sixteen Candles”  
**“Sixteen Candles” Summersweet**  
[4’ x 4’] Zone 4

A very compact and floriferous Summersweet. It differs from “Hummingbird” in that its flower stalks are held stiffly upright. Fragrance is heavenly in mid-to-late Summer, and Fall color is a good yellow.

- [Native](#)
- [Woody](#)

### Cornus alba “Bailhalo”  
**Ivory Halo® Red Twig Dogwood**  
[6’ x 6’] Zone 3

(P.P. 8722) A more compact, variegated red twig. Leaves are green with cream-colored edges. Brilliant red stems bring color to the landscape during Winter.

### Cornus alba “Bud’s Yellow”  
**“Bud’s Yellow” Yellow Twig Dogwood**  
[8’ x 6’] Zone 3

Bright yellow stems and improved disease resistance make this plant an excellent choice for low maintenance mass or border plantings.
Cornus florida “Cherokee Princess®” Dogwood  
“Cherokee Princess®” Dogwood  
[25’ x 20’] Zone 5

Large white bracts make this plant a great selection.

Cornus florida rubra  
Pink-flowering Dogwood  
[20’ x 20’] Zone 5

A small specimen tree featuring large yet dainty pink blooms in Spring and wide-spreading form; requires rich, well-drained acidic soil and adequate precipitation, best with some shelter.

Cornus florida rubra “Comco #1”  
Cherokee Brave™ Dogwood  
[20’ x 20’] Zone 5

(P.P. 10166) A mildew resistant variety that features burgundy-red new growth, changing to a deep green with time. Deep red flowers.

Cornus kousa  
Kousa Dogwood  
[25’ x 25’] Zone 5

Asian relative of Cornus florida. Larger flowers appear after foliage and later in the season. Raspberry-like fruits in late Summer followed by scarlet Fall foliage. (Available in single-stem or clump)

Cornus kousa “Greensleeves”  
“Greensleeves” Oriental Dogwood  
[25’ x 18’] Zone 5

An upright, deciduous tree with large, wavy, glossy, dark green leaves. June flower bracts are white with a hint of green, red fruits in Fall.

Cornus kousa “KN30-8” Venus™  
“Venus™” Kousa Dogwood  
[25’ x 25’] Zone 6

(P.P. 16309) Huge white flowers in April-May with clean glossy leaves and shrubby habit similar to Cornus Kousa. Highly disease resistant Rutgers hybrid.
Cornus mas “Golden Glory”  
“Golden Glory” Corneliancherry Dogwood

[20’ x 15’] Zone 4

Small tree or large shrub with yellow blooms very early in the Spring and cherry-red fruit in July. Available in tree form or low-branched multi-stem.

Cornus sanguinea “Cato”  
Arctic Sun™ Dogwood

[4’ x 4’] Zone 4

A compact Dogwood that displays beautiful yellow stems with tips of deep red coloration in Winter and a great yellow-orange Fall color.

Cornus sericea “Cardinal”  
“Cardinal” Red Twig Dogwood

[8’ x 10’] Zone 2

This red stem Dogwood has bright cherry-red stems with small white flowers. Always good to use for mass plantings or screening.

Cornus sericea f. baileyi  
Bailey’s Red Twig Dogwood

[8’ x 8’] Zone 2

An excellent red stem Dogwood that grows denser and more erect than Cornus alba “Siberica.” A fine plant for sustained Winter interest. A good choice for mass plantings.

Cornus stolonifera “Farrow”  
Arctic Fire™ Red Twig Dogwood

[4’ x 4’] Zone 3

(P.P. 18523) A compact selection of the ever-popular red stem Dogwood. Dark red Winter stems, a non-suckering habit, and compact form make this a beautiful addition to any garden.

Cornus x “Rutdan”  
Celestial® White Flowering Dogwood

[20’ x 20’] Zone 5

(P.P. 7204) One of the Rutgers series, developed by crossing our Native Flowering Dogwood with the Kousa Dogwood. The result is a plant that shows better resistance to Anthracnose and Borers. The bloom period is later than Cornus florida.
### Woody

**Cornus x “Rutgan”**

* **Stellar Pink® Flowering Dogwood**

(P.P. 7207) Another Rutgers series Dogwood with great disease resistance. This variety is a vigorous grower with pink blossoms.

- Sun
- Moisture

---

**Cotinus coggygria “Young Lady”**

* **“Young Lady” Smokebush**

A free-flowering, mid-sized, deciduous shrub with rounded, green, shiny leaves that become orange-tinted in Fall. From Summer to Fall, bears plumes of frothy, creamy-pink flowers.

- Sun
- Moisture

---

**Cotinus x “Grace”**

* **Purple Smoketree**

New leaves emerge intense wine-red then mature to dusky reddish-blue. Summer brings an explosion of large panicles covered in deep pink florets. Fall follows with a show of bright orange-red foliage.

- Sun
- Moisture

---

**Cotoneaster adpressus “Tom Thumb”**

* **“Tom Thumb” Cotoneaster**

A miniature deciduous groundcover with low-spreading, arching branches and tiny leaves. Low maintenance. Rarely produces flowers or fruits. Adaptable to seashore conditions.

- Sun
- Moisture

---

**Cotoneaster apiculata**

* **Cranberry Cotoneaster**

A dense, mounded, deciduous shrub with shiny green foliage and fine texture; pink-white flowers in early Spring with bright red fruit throughout Winter; this variety is the hardiest and best fruiting of all.

- Sun
- Moisture

---

**Cotoneaster dammeri “Coral Beauty”**

* **“Coral Beauty” Cotoneaster**

Good flowering and fruiting form with prostrate branching; widely used for evergreen groundcover and mass planting, especially with rock walls and terraces.

- Sun
- Moisture
Cotoneaster salicifolius "Repandens"  [1½' x 6'] Zone 6
Willowleaf Cotoneaster
Nice, low-growing, evergreen shrub; dark, slender, glossy green leaves and small white flowers followed by bright red fruits; excellent for mass plantings and groundcover.

Crataegus phaenopyrum  [25' x 20'] Zone 3
Washington Hawthorn
The Hawthorn of choice for many years. Makes an excellent hedge or thorny barrier. White blossoms in Spring turn to bright red berries which persist through mid-Winter. Scarlet Fall foliage.

Crataegus viridis "Winter King"  [25' x 25'] Zone 4
"Winter King" Hawthorn
Stout growth habit with very good rust resistance. Abundant flowers in Spring, followed by red fruits which persist throughout the Winter.

Cryptomeria japonica "Radicans"  [35' x 10'] Zone 5
"Radicans" Cryptomeria
Very similar tall, pyramidal growth habit as “Yoshino,” but with a little more of a bluish tone to the foliage. Also will not bronze up as much in the Winter.

Cryptomeria japonica "Yoshino"  [35' x 15'] Zone 5
"Yoshino" Cryptomeria
Pyramidal evergreen tree with graceful branching. Its blue-green Summer foliage becomes slightly bronze-green in cold weather. This fast growing plant can be used effectively as a screen or a handsome specimen.

Cupressocyparis leylandii  [60' x 12'] Zone 5
Leyland Cypress
Large, fast-growing, fine-textured evergreen which has gained tremendous popularity. It can be used as a formal accent, en masse, or as a specimen.
**Woody**

Cupressus sempervirens

**Italian Cypress**

[40’ x 10’] Zone 7

Famous in the Mediterranean landscape, Italian Cypress is best known for its pencil-like form which can be used as an accent specimen in the landscape.

---

Deutzia gracilis

**Slender Deutzia**

[4’ x 4’] Zone 4

Small-scale border plant which blooms white in May.

---

Deutzia gracilis “Nikko”

**“Nikko” Slender Deutzia**

[2’ x 5’] Zone 5

A U.S. National Arboretum introduction, “Nikko” is a small-scale, deciduous shrub which produces vivid white flower clusters in mid-Spring. Works well as a low border or as an accent in a rock garden.

---

Euonymus alatus “Compactus”

**Compact Burning Bush**

[9’ x 9’] Zone 4

An extremely popular compact strain. Corky winged stems not as defined as species but more uniform in size and Fall color.

---

Euonymus alatus “Fire Ball®”

**“Fire Ball®” Burning Bush**

[6’ x 4’] Zone 4

An improved selection of “Compacta” with tighter branching and superior stem hardiness. No Winter damage even after the coldest of Winters, while “Compacta” may die back. Outstanding Fall color!

---

Euonymus alatus “Odum” Little Moses™

**Little Moses™ Burning Bush**

[3’ x 3’] Zone 4

(P.P. 13168) Slower growing and more compact than “Compacta.” It also holds onto its foliage a few weeks longer extending its season of interest.

---

Fothergilla gardenii
**Dwarf Fothergilla**

[3’ x 5’] Zone 5

Low, dense, deciduous shrub with dark green leaves, almost bluish-green in Summer, and white, fragrant flowers. The Fall colors are brilliant yellow, red, and orange. Good in mass plantings and in borders. Prefers partial sun.

Fothergilla gardenii “Mt. Airy”
**“Mt. Airy” Fothergilla**

[5’ x 5’] Zone 4

White flowers in Spring borne in upright spikes with a sweet honey scent. Dark green foliage with blue tints turns a striking yellow and orange in the Fall.

Fothergilla major “Blue Shadow”
**“Blue Shadow” Fothergilla**

[6’ x 5’] Zone 4

(P.P. 15490) Like all Fothergilla, honey-scented, bottlebrush flowers adorn it in early Spring before it leafs out with colorful, dark silvery-blue leaves. Fall foliage transforms to shades of rich red, orange and yellow.

Franklinia alatamaha
**Franklin Tree**

[15’ x 15’] Zone 5

A deciduous small tree or large shrub with elongated, dark green leaves that turn red, orange, or pink in the Fall. From late Summer until frost it has showy 2 - 3” snow-white flowers with clusters of golden yellow stamens in the centers.

Fraxinus americana “Autumn Purple®”
**“Autumn Purple®” Ash**

[45’ x 45’] Zone 4

An excellent selection of White Ash that is more restrained in habit and exhibits beautiful reddish-purple Fall color.

Fraxinus pennsylvanica “Patmore”
**“Patmore” Ash**

[60’ x 35’] Zone 3

A fine introduction smaller in scale and more well-behaved than “Marshall’s.” The plant is a male and therefore seedless. A very handsome and tough plant.

</tbody>
</table>
Gymnocladus dioicus  
**Kentucky Coffeetree**  
[70’ x 45’] Zone 3

A large, slow-growing shade tree that looks similar to walnut but is more ornamental. Drought tolerant and grows well in urban conditions. Excellent deep bluish-green foliage in Summer contrasts with stark outline in Winter.

---

Halesia carolina “Jersey Belle”  
**“Jersey Belle” Carolina Silverbell**  
[25’ x 20’] Zone 5

Neat, upright habit makes this tree an excellent choice where space is tight. Masses of pure white, bell shaped flowers with yellow stamens in Spring. Trunk is dark gray with whitish vertical striping, becoming ringed and furrowed with age.

---

Hamamelis vernalis  
**Vernal Witchhazel**  
[10’ x 10’] Zone 4

This rounded, deciduous shrub produces yellow to red flowers for a 3- to 4-week period in mid-to-late Winter.

---

Hamamelis vernalis “Amethyst”  
**“Amethyst” Witchhazel**  
[12’ x 12’] Zone 5

“Amethyst” vernal Witchhazel has fragrant lavender-purple flowers appearing in late Winter and early Spring, followed by coppery new growth. Good orange and yellow Fall color.

---

Hamamelis virginiana  
**Common Witchhazel**  
[15’ x 15’] Zone 3

A small, native tree which blooms yellow in the Fall or the early Spring. Does well in shade.

---

Hamamelis x intermedia “Arnold’s Promise”  
**“Arnold’s Promise” Witchhazel**  
[15’ x 15’] Zone 5

Bright yellow, sweet-smelling, flowering witchhazel blooms profusely January through February. Foliage is dark green, turning brilliant yellow, orange and red in the Fall.
Hamamelis x intermedia “Jelena”  [15’ x 10’] Zone 5
Copper Beauty Witchhazel

Coppery orange flowers on bare branches in the midst of Winter. Dark green foliage turns to showy red and orange in the Fall.

Hibiscus syriacus “American Irene Scott”  [12’ x 6’] Zone 5
Sugar Tip® Rose of Sharon

(P.P. 20579) An eye-catching new Rose of Sharon with brightly variegated creamy-white and blue-green foliage. Loads of clear pink, double flowers, and it does not produce seed.

Hibiscus syriacus “Miss Jilene®”  [10’ x 5’] Zone 5
“Miss Jilene®” Rose of Sharon

(P.P. 07877) Interesting variegation on this upright bushy shrub. White blossoms with carmine eyes bloom from mid-to-late Summer.

Hibiscus syriacus “Notwoodone”  [8’ x 6’] Zone 5
Lavender Chiffon™ Rose of Sharon

(P.P. 12619) Sizeable deciduous shrub with large, single lavender flowers adorned with a lacy center throughout the Summer.

Hydrangea arborescens  “Abetwo”  [5’ x 5’] Zone 3
Incrediball® Smooth Hydrangea

(P.P. 20571) An improved Annabelle Hydrangea with sturdy stems and stupendously large, creamy-white blooms. Prolific flowering.

Hydrangea arborescens “Invincibelle® Spirit”  [4’ x 4’] Zone 3
“Invincibelle® Spirit” Hydrangea

(P.P. 20765) Rich pink 6” diameter flowers bloom from early Summer to frost. Dark pink buds open to hot pink flowers which then turn soft pink as they mature, finally changing to green at the end of their life cycle. Very hardy. Reliable bloomer.

</tbody>
</table>
**Hydrangea quercifolia “Alice”**

An upright growth habit with oak-shaped leaves; creamy white 10 - 12” long inflorescences changing to pink-rose; burgundy-red Fall foliage; exfoliating branches highlighted in Winter.

**Hydrangea quercifolia “Pee Wee”**

Compact habit. Small, cone-shaped, white flowers in early to mid-Summer. Excellent wine-red Autumn foliage.

**Hydrangea quercifolia “Snowflake”**

(P.P. 3047) Coarse, oak-like foliage turns burgundy in the Fall. Individual double flowers continue to grow from the center, producing new bracts on top of the older ones which turn pink. The 15” panicles always have fresh flowers and a two-color effect as the older bracts age.

**Hydrangea serrata “Preziosa”**

Blushed-pink snowball flowers; green leaves gradually become stained with hues of pink and red in the Fall.

**Hypericum kalmianum “Gemo”**

Tightly branched shrub noted for its long bloom time from July to September. Rich yellow flowers, small but numerous, set off by willow-like leaves.

**Ilex cornuta “Burfordii Nana”**

A slow-growing, compact Chinese Holly with broad, dark green leaves. Large red berries will persist on the plant into the Fall.
Ilex crenata “Compacta”  
“Compacta” Japanese Holly  
[6’ x 8’] Zone 6

An often-used, compact form of Japanese Holly that grows slowly and densely. “Compacta” grows broader than tall, and its branches are slightly ascending.

Ilex crenata “Green Lustre”  
“Green Lustre” Japanese Holly  
[4’ x 8’] Zone 5

Dense, very popular Japanese Holly because of its cold tolerance and glossy foliage. Similar to Ilex “Rotundifolia,” but more compact in habit.

Ilex crenata “Hoogendorn”  
“Hoogendorn” Japanese Holly  
[3’ x 6’] Zone 6

Low-growing, compact evergreen with flattened dark green foliage. A good replacement for Boxwood. A good foundation or low hedge plant.

Ilex crenata “Sky Pencil”  
“Sky Pencil” Japanese Holly  
[8’ x 2’] Zone 6

A very narrow spread with a very tight, fastigiate growth habit makes this plant good for formal plantings.

Ilex crenata “Sky Pointer™”  
“Sky Pointer™” Japanese Holly  
[5’ x 2’] Zone 6

(P.P. 20049) Narrow, conical seedling of “Sky Pencil” Holly. Shiny, dark evergreen leaves and tight upright branching make this an elegant formal evergreen for urban patios or for framing entryways.

Ilex crenata “Soft Touch”  
“Soft Touch” Japanese Holly  
[2’ x 3’] Zone 6

Soft to the touch and on the eyes. Dense, compact, and low-growing. “Soft Touch” creates an unobtrusive mound of glossy green where you need it. Excellent replacement for “Helleri.”
Ilex crenata “Steeds”  
“Steeds” Japanese Holly  
[10’ x 3’] Zone 6

A lustrous, green column of leaves creates a perfect shear-free hedge or a good choice for tight areas.

Ilex glabra “Nigra”  
“Nigra” Inkberry  
[4’ x 4’] Zone 4

A compact, trouble-free Inkberry that grows full to the ground. Dark green leaves are accentuated by long-lasting, black, berry-like fruits. Prefers moist soil and sun but will tolerate some shade.

Ilex glabra “Shamrock”  
“Shamrock” Inkberry  
[4’ x 4’] Zone 4

More compact than the species, “Shamrock’s” leaves are smaller, and they stand up on the stem, giving the plant a finer, more positive texture.

Ilex opaca “Grace”  
“Grace” American Holly  
[30’ x 20’] Zone 5

(PPAF) Foliage is broadly elliptic, dull and spiny; normal color is olive green. Trees maintain a pyramid shape. Fruit is vivid red in large clusters. This holly does not do as well as others by the coast and grows best in full sun.

Ilex opaca “Miss Helen”  
“Miss Helen” American Holly  
[30’ x 20’] Zone 5

Old reliable variety, slower growing opaca with oblong cherry fruit. Good orcharding plant (for cut branches). Adapts well in both northern and southern climes.

Ilex opaca “Portia Orton”  
“Portia Orton” American Holly  
[30’ x 20’] Zone 5

An introduction from Dr. Elwin Orton of Rutgers University glows with broad black-green leaves with a shiny sheen. Large cherry-red fruits are borne in abundance.
Ilex verticillata “Apollo”
“Apollo” Winterberry Holly

[12’ x 8’] Zone 5

A great male pollinator for “Sparkleberry.” This U. S. National Arboretum selection has reddish new growth maturing to green.

Ilex verticillata “Jim Dandy”
“Jim Dandy” Winterberry Holly

[4’ x 4’] Zone 3

Extremely hardy, male Holly with rich, deep green foliage on a dense, oval-rounded form. Plant as a pollenizer for other Winterberry varieties. Produces no berries. Deciduous.

Ilex verticillata “Red Sprite”
“Red Sprite” Dwarf Winterberry Holly

[3’ x 3’] Zone 3

A large berried, slow-growing, dwarf deciduous shrub which produces an abundance of red berries that persist from Fall to early Spring.

Ilex verticillata “Winter Gold”
“Winter Gold” Winterberry Holly

[8’ x 8’] Zone 3

A branch sport of “Winter Red®,” this plant features unusual pinkish or golden-orange fruit. Requires a late-blooming male as a pollinator such as “Southern Gentleman.” The leaf color is a lighter green than “Winter Red®.”

Ilex verticillata “Winter Red®”
“Winter Red®” Holly

[9’ x 8’] Zone 3

A cultivar with dark green foliage, which turns bronze in the Fall. Red berries will persist on the females throughout Winter.

Ilex x “Emily Bruner”
“Emily Bruner” Holly

[20’ x 10’] Zone 7

A broadleaf evergreen with large, multi-spined, dark green leaves. Large red fruits encircle the stems.
### Ilex x "Nellie R. Stevens"

**"Nellie R. Stevens" Holly**

[25' x 10'] Zone 6

Said to be a cross between Ilex aquifolium and Ilex cornuta. A broad, pyramidal plant with large, shiny green leaves that lends itself to specimen or accent use. Can be spectacular in fruit.

### Ilex x aquipernyi “Dragon Lady™”

**“Dragon Lady™” Holly**

[15' x 4'] Zone 5

Pyramidal, dark, lustrous-leaved specimen or accent plant with contrasting red berries. Fine alternative to commonly used evergreens for hedges or screens.

### Ilex x meserveae “Blue Maid®”

**“Blue Maid®” Holly**

[12' x 8'] Zone 4

Reportedly the most hardy of the Blue series, “Blue Maid®” features lush blue-green foliage with prominent spines, and bright red berries which persist through the Winter months.

### Ilex x meserveae “Blue Prince®”

**“Blue Prince®” Holly**

[12' x 12'] Zone 4

Another male of the hardy Blue series. Counterpart to “Blue Princess®,” but will pollinate most female Blue Hollies.

### Ilex x meserveae “Blue Princess®”

**“Blue Princess®” Holly**

[12' x 12'] Zone 4

Deep blue-green foliage with heavy, bright red berry sets. Responds well to shearing.

### Ilex x meserveae “China Boy®”

**“China Boy®” Holly**

[10' x 8'] Zone 4

Male form, needed for pollination. Can be used as a foundation plant or for hedges.
Ilex x meserveae “China Girl®” [10’ x 10’] Zone 4
**“China Girl®” Holly**

The China series is similar to the Blues in hardiness and form, but the foliage appears a much lighter green, and therefore the fruits stand out. Rounded, upright growth habit.

---

Ilex x meserveae “Hechfee” [10’ x 3’] Zone 5
**Castle Spire™ Holly**

(P.P. 14310) A beautiful compact, pyramidal blue Holly with large, lustrous, dark green leaves, bright red berries and superior branching.

---

Itea virginica “Henry’s Garnet” [4’ x 6’] Zone 5
**“Henry’s Garnet” Sweetspire**

A native, deciduous shrub which grows in shade but becomes much fuller in sun. Blooms a fragrant white in early Summer. “Henry’s Garnet” was selected for its intense red Fall color.

---

Itea virginica “Sprich” [2’ x 3’] Zone 5
**“Little Henry®” Dwarf Sweetspire**

(P.P. 10988) Low mounding, compact, deciduous shrub with sweetly scented, pure white flowers which bloom in early Summer. Brilliant red Fall color.

---

Jasminum nudiflorum [4’ x 6’] Zone 5
**Winter Jasmine**

Sweeping branches with a profusion of yellow blossoms in very early Spring. This plant grows into a dense mat which holds banks well.

---

Juniperus chinensis “Expansa” [2½’ x 8’] Zone 5
**Parson’s Juniper**

A prostrate Juniper used for covering banks and parking lot islands; a mounding growth habit with a gray-green color.
**Juniperus chinensis “Gold Lace”**

**“Gold Lace” Juniper**

(P.P. 8202) This compact grower maintains a consistent golden color throughout the plant. With its tight growth habit and thorough coloring, this plant is a great choice.

**Juniperus chinensis “Hetzii Columnaris”**

**Hetz Columnar Juniper**

Upright pyramidal form. Fast growing with bright green needles. Also known as “Fairview” Juniper. Excellent for screening.

**Juniperus chinensis “Nick’s Compact”**

**“Nick’s Compact” Juniper**

This compact shrub with blue-green needles has an upright mounding habit.

**Juniperus chinensis “Pfitzeriana Glaucia”**

**Blue Pfitzer Juniper**

Silver-blue foliage spreading from many branches; shorter than “Hetzii Glaucia.”

**Juniperus chinensis “Sea Green”**

**“Sea Green” Juniper**

A more manageable, spreading Juniper; foliage is mint-green and always attractive; can be used in foundation plantings without becoming overgrown.

**Juniperus chinensis “Spartan”**

**“Spartan” Juniper**

A fast-growing, dense plant with an upright pyramidal habit makes this plant ideal for screening.
<p>| Woody | Juniperus chinensis “Torulosa” | [20’ x 10’] Zone 6 |
|       | Hollywood Juniper             |                       |
|       | Asymmetrical, bright green upright plant which sets a big, glaucous fruit. Superb as a specimen or vertical accent. |
|       | <img src="https://via.placeholder.com/15" alt="Sun" /> <img src="https://via.placeholder.com/15" alt="Graze" /> <img src="https://via.placeholder.com/15" alt="Drainage" /> |
|       | Juniperus chinensis var. sargentii | [1½’ x 6’] Zone 4 |
|       | Sargent Juniper               |                       |
|       | Popular with designers, the Sargent Juniper is usually reserved for mass and ground cover-type situations. |
|       | <img src="https://via.placeholder.com/15" alt="Sun" /> <img src="https://via.placeholder.com/15" alt="Graze" /> <img src="https://via.placeholder.com/15" alt="Drainage" /> |

</table>
Juniperus virginiana “Hillspire”  
“Hillspire” Juniper  

[20’ x 6’] Zone 3

Has a pyramidal-conical growth habit. “Hillspire” maintains its bright green foliage in the Winter. Useful as a hedge, grouping, or screening plant, but also stands out as a specimen.

Juniperus virginiana “Idyllwild”  
“Idyllwild” Juniper  

[20’ x 6’] Zone 3

Broad-based, pyramidal, evergreen shrub with informal, rugged, upright branching. Excellent for use as a screen, background, or accent.

Kalmia latifolia “Olympic Fire”  
“Olympic Fire” Mountain Laurel  

[5’ x 4’] Zone 5

Showy clusters of red buds open to gorgeous light pink flowers. Evergreen shrub that can be used in borders, woodland gardens, and hedges. Spring flowering, sturdy plant.

Koelreuteria paniculata  
Golden Raintree  

[35’ x 35’] Zone 5

A beautiful dense tree with a rounded form. 12 - 15” long panicles of yellow flowers in mid-to-late July make this tree a standout. Adaptable to a wide range of soils. Drought and pollution tolerant.

Kolkwitzia amabilis “Dream Catcher™”  
“Dream Catcher™” Beauty Bush  

[7’ x 7’] Zone 4

Unlike most Beauty Bush with their spectacular one season Spring flower show, “Dream Catcher” offers multi-season interest! Pink Spring flowers are followed by golden yellow foliage which turns a striking orange-red in Fall.

Lagerstroemia indica x fauriei “Tuscarora”  
“Tuscarora” Crapemyrtle  

[15’ x 15’] Zone 7

A medium size grower, has deep coral-pink flowers, and foliage that turns orangish-red in Fall. Attractive, mottled, light brown bark.
Lagerstroemia x “Natchez”  
“Natchez” Crapemyrtle  
[20’ x 20’] Zone 7

A lovely shrub or small tree, “Natchez” is covered with a profusion of dazzling white flowers in early Summer. Lustrous, dark green leaves change to orange then red in Fall. Exfoliating bark completes the package of a perfect landscape plant.

Leucothoe axillaris  
Coast Leucothoe  
[3’ x 4’] Zone 5

Compact evergreen with glossy, dark green leaves. White flowers in April and May. Prefers acidic, moist, well-drained soil and shade.

Leucothoe fontanesiana “Girard’s Rainbow”  
“Girard’s Rainbow” Leucothoe  
[3’ x 3’] Zone 5

A compact variety which produces bright, marbled foliage. Once established, “Girard’s Rainbow” can really bring some light into a dark corner.

Leucothoe fontanesiana “Zeblid”  
Scarletta® Fetterbush  
[2’ x 4’] Zone 4

(P.P. 5195) An attractive ground cover. The long slender leaves have a pinkish-green tinge to them which in Fall turn to a burnished red and burgundy.

Ligustrum amurense “North River”  
“North River” Privet  
[12’ x 15’] Zone 4

Attractive, hardy, deciduous shrub. Valuable as a hedge plant. Easily trimmed.

Lindera benzoin  
Spicebush  
[8’ x 8’] Zone 4

Strongly aromatic, native shrub. Pale yellow little flowers hug branches in early Spring before the leaves emerge. In late Summer scarlet fruits add rich color.

1-800-868-8676
**Sweetgum**

**Liquidambar styraciflua**  
[60’ x 40’] Zone 5

A large, fast-growing native shade tree with a pyramidal, uniform growth habit. Beautiful gold and scarlet foliage in Fall.

<table>
<thead>
<tr>
<th>Sun</th>
<th>Native</th>
<th>DRY</th>
</tr>
</thead>
</table>

**Liquidambar styraciflua “Happdell”**  
**Happidaze® Sweetgum**  
[45’ x 25’] Zone 4

An upright tree with a heavy, dense crown and well-spaced branching at an early age. Lustrous, deep green leaves turn a deep maroon in Fall. This tree is apparently seedless.

<table>
<thead>
<tr>
<th>Sun</th>
<th>Native</th>
<th>DRY</th>
</tr>
</thead>
</table>

**Liquidambar styraciflua “Silver King”**  
**“Silver King” Sweetgum**  
[40’ x 20’] Zone 5

A new variegated form with generous amounts of white and green leaves. Sets few seeds. Flushes rose in late Summer and Fall.

<table>
<thead>
<tr>
<th>Sun</th>
<th>Native</th>
<th>DRY</th>
</tr>
</thead>
</table>

**Liquidambar styraciflua “Slender Silhouette”**  
**“Slender Silhouette” Sweetgum**  
[60’ x 7’] Zone 6

Extremely columnar form with yellowish to reddish-purple Fall colors. This tree is apparently seedless.

<table>
<thead>
<tr>
<th>Sun</th>
<th>Native</th>
<th>DRY</th>
</tr>
</thead>
</table>

**Tulip Tree**

**Liriodendron tulipifera**  
[80’ x 45’] Zone 4

A large native shade tree which flowers yellow in May or June. The Tulip Tree is a member of the Magnolia family, with large, fleshy roots. Spring transplant ONLY.

<table>
<thead>
<tr>
<th>Sun</th>
<th>Native</th>
<th>DRY</th>
</tr>
</thead>
</table>

**Liriodendron tulipifera “Arnold”**  
**“Arnold” Tulip Tree**  
[55’ x 15’] Zone 5

This upright grower is well suited for narrow spaces, though its stately size is best suited for larger properties. Unusual yellow-green, tulip-like flowers appear in late Spring through Summer. Foliage has pretty golden yellow color in Fall.

<table>
<thead>
<tr>
<th>Sun</th>
<th>Native</th>

</table>
Lonicera periclymenum "Peaches & Cream"  
[5' x 5'] Zone 4  
"Peaches & Cream" Honeysuckle

(P.P. 21839) Lonicera with huge, tropical-looking pink and white bicolor florets on a cold-hardy plant. Unique, fragrant, bicolor florets – butterflies and hummingbirds will go mad! Terrific evergreen vine.

Maackia amurensis “Select”  
[20' x 20'] Zone 4  
Amur Maackia

A spreading deciduous tree that is slow-growing, but hardy. It has showy, dark green foliage and flowers at a young age. Good for use as a small street tree.

Magnolia stellata "Centennial"  
[15' x 15'] Zone 4  
“Centennial” Star Magnolia

Developed and named for Arnold Arboretum’s centennial, this fine Magnolia has 3 - 4" flowers formed by 30+ star-shaped “petals” of white flushed with pink.

Magnolia stellata “Royal Star”  
[15' x 10'] Zone 4  
“Royal Star” Magnolia

Selection which blooms later than the parent. Also, the flowers are larger and retain a purple hue at the base.

Magnolia virginiana  
[35' x 35'] Zone 5  
Sweetbay Magnolia

A native semi-evergreen that deserves use in the small space garden because of its fragrant white flowers, compact form, and attractive foliage which shows off its silver underside in the breeze.

Magnolia virginiana “Moonglow®”  
[30' x 15'] Zone 4  
“Moonglow®” Magnolia

(P.P. 12065) This upright, semi-evergreen tree has 2 - 3" diameter, fragrant, creamy white flowers emerging in May through June. Use as small patio or specimen tree. Does well in wet soils and shade.

</table>
Malus “Donald Wyman”
“Donald Wyman” Flowering Crabapple

[20’ x 24’] Zone 4
Pink buds open white on this disease-resistant selection from the Arnold Arboretum; fruits are bright red and persistent.

Malus “Golden Raindrops™”
“Golden Raindrops™” Flowering Crabapple

[20’ x 15’] Zone 4
This Crabapple has a delicate appearance due to its fine-textured, deeply cut foliage. Horizontal branching with white flowers and tiny golden-yellow fruit. Excellent disease resistance.

Malus “Indian Magic”
“Indian Magic” Flowering Crabapple

[20’ x 20’] Zone 4
A deep pink flowering Crabapple with dark green foliage and interesting orange-red fruits which persist into the Winter.

Malus “Indian Summer”
“Indian Summer” Flowering Crabapple

[18’ x 24’] Zone 4
This disease-resistant, spreading Crab produces rose-red flowers followed by bright red, persistent fruits against medium bronze-green foliage.

Malus “Prairifire”
“Prairifire” Flowering Crabapple

[20’ x 20’] Zone 4
This tree has an upright, rounded habit with red flowers and dark red fruit; the new growth is reddish-maroon maturing to dark green.

Malus “Profusion”
“Profusion” Flowering Crabapple

[20’ x 20’] Zone 4
A popular disease-resistant variety with an upright spreading habit; the deep pinkish-red flowers are followed by maroon fruit; the foliage is purple fading to bronze.
**Malus “Snowdrift”**

“Snowdrift” Flowering Crabapple

[20’ x 20’] Zone 4

A very popular variety with white flowers and pink buds, orange-red fruits, and green foliage; disease resistant.

**Malus “Spring Snow”**

“Spring Snow” Flowering Crabapple

[25’ x 20’] Zone 4

This is a fruitless selection that blooms profusely with pure white flowers. It has a dense oval habit with medium green foliage.

**Malus “Sugar Tyme™”**

“Sugar Tyme™” Flowering Crabapple

[18’ x 15’] Zone 4

This disease-resistant variety has pale pink buds that open to sugar-white, fragrant flowers. The ½” diameter red fruit are abundant and persist in the Fall.

**Malus sargentii**

Sargent Flowering Crabapple

[7’ x 12’] Zone 4

A low-growing, broad-headed species, the Sargent Crabapple makes an excellent specimen where space is at a premium. Good for mass plantings. Pink buds open to white flowers which produce bright, persistent, red fruit clusters.

**Metasequoia glyptostroboides “Dawn Redwood”**

[70’ x 25’] Zone 4

“A Dawn Redwood”

A fast-growing, conical, deciduous conifer with ascending branches and fine-textured, needle-like foliage. Fall color is an attractive orange-brown. Handsome bark in Winter is reddish-brown, exfoliating into long narrow strips.

**Microbiota decussata**

Russian Arborvitae

[1’ x 10’] Zone 3

A coniferous evergreen shrub that grows in a spreading mat or low mound. The bright green new foliage turns dark green by Summer and then turns bronze to burgundy in the Winter. Needs good drainage and full sun to partial shade.

www.waynesboronurseries.com
Myrica pensylvanica
Northern Bayberry

Salt-tolerant, semi-evergreen shrub which lends itself to use in borders, foundation plantings, and en mass. Berries from this plant are still used in making Bayberry candles.

Nandina domestica
Heavenly Bamboo

The foliage emerges a fine-textured, light green, changing to a deeper green with white blossoms by June. It turns to shades of crimson and orange. The plant is then covered with fat clusters of red berries that cling into Winter.

Nandina domestica “Compacta”
Compact Nandina

Similar characteristics of Nandina domestica with a more compact size.

Nandina domestica “Fire Power”
“Fire Power” Nandina

A compact selection with lime-green leaves in Spring. The leaves will become red-tinged in the Summer changing to bright red in the Fall. No flowers or fruit.

Nandina domestica “Gulf Stream”
“Gulf Steam” Nandina

(P.P. 5656) Outstanding evergreen shrub displays attractive foliage in all seasons. New growth is scarlet maturing to blue-green in Summer and intense red Fall color. Dense foliage with ascending branches.

Nyssa sylvatica
Blackgum, Sour Gum, Black Tupelo

One of our finest native shade trees, Blackgum forms a shapely, oval crown of rich green leaves which turn magnificent hues of scarlet to deep maroon in early Fall. Tolerant of many soils and exposures.

Pinus nigra [50’ x 25’] Zone 4
**Austrian Pine**

This dark green, course-textured Pine has a handsome, pyramidal form. It is the most tolerant Pine of urban environments.

---

Pinus Resinosa [75’ x 35’] Zone 2
**Red Pine**

A common, large evergreen conifer with small cones and a broad, irregular or rounded crown of spreading branches, 1 row added a year. Red pine is a symmetrically oval, canopy tree. The long, straight trunk is covered with reddish-brown, scaly bark.

---

Pinus strobus [70’ x 35’] Zone 3
**White Pine**

Amazingly popular as a screen or evergreen backdrop plant. White Pines once covered most of the eastern third of this continent. Soft, light green foliage, and rapid-growing. Semi-sheared.

---

Pinus sylvestris [30’ x 30’] Zone 2
**Scotch Pine**

Excellent blue-green needle color and picturesque form. The bark exfoliates and reddens with age.

---

Pinus thunbergiana [30’ x 25’] Zone 5
**Japanese Black Pine**

Known for its irregular, asymmetrical growth habit. This plant is often used for contrast or as an accent. Salt tolerance makes it useful along roadsides or at the beach.

---

Platanus x acerifolia “Bloodgood” [50’ x 40’] Zone 4
**London Planetree**

A coarse-textured tree useful in large-scale situations. Easily transplanted, seems to hold up better than Sycamore against fungus problems. Exfoliating bark adds interest.
Platanus x acerifolia “Columbia”  
“Columbia” Planetree  
[50’ x 40’] Zone 5
Introduction from The National Arboretum. Trees have gray-orange bark in youth while older trees’ bark peels to reveal yellow-green beneath. Fast grower.

Platanus x acerifolia “Exclamation!™”  
“Exclamation!™” London Planetree  
[60’ x 30’] Zone 4
Matures to an upright pyramidal form with a strong central leader. Has attractive brown, green, tan, cream and white exfoliating bark. Adaptable to a wide range of soils, including poor and construction soils. Resistant to Anthracnose and frost crack.

Potentilla fruticosa “Gold Drop”  
“Gold Drop” Bush Cinquefoil  
[2’ x 3’] Zone 2
Compact habit and delicate foliage with lemon-yellow flowers all Summer.

Prunus cerasa “Krauter Vesuvius”  
“Krauter Vesuvius” Plum  
[20’ x 15’] Zone 4
This tree is very similar to Thundercloud but tends to be more upright and a little more compact. This heat tolerant tree has light pink flowers before the dark purple foliage appears.

Prunus cerasifera “Thundercloud”  
“Thundercloud” Plum  
[20’ x 20’] Zone 5
Upright, dense, rounded, spreading habit with light pink flowers and deep purple foliage throughout the growing season.

Prunus incisa x Campanulata  
Okame Flowering Cherry  
[25’ x 20’] Zone 5
Early, small, clear pink, semi-double flowers are long-lasting. Fine textured, dark green foliage turns yellow-orange to orange-red in Fall on this upright, oval ornamental.
Prunus laurocerasus “Otto Luyken” [4’ x 8’] Zone 6
“Otto Luyken” Laurel

Versatile, broadleaf, evergreen shrub which tolerates shade. Grows twice as wide as it is tall. Fragrant flowers add interest in early Spring.

Prunus laurocerasus “Schipkaensis” [6’ x 8’] Zone 5
Schip Laurel

The lustrous, dark green foliage makes this plant quite unique. This shade-tolerant plant is excellent for hedges and group plantings.

Prunus padus Drietree Merlot® [25’ x 15’] Zone 3
Merlot® European Birdcherry

Very uniform, upright growth habit with leaves emerging green and turning deep burgundy in Summer until leaf-drop. Fragrant white flowers. Strong grower with very consistent branching. Abundant deep merlot-red fruit in the Fall.

Prunus serrulata "Beni Hoshi" [25’ x 25’] Zone 5
Pink Star Flowering Cherry

Long lasting, vivid pink flowers that hang below the branches highlight this tree. The head has a rounded to horizontal shape with long, arching branches forming an umbrella shape. Also, coppery-red, glossy peeling bark.

Prunus serrulata “Kwanzan” [35’ x 35’] Zone 5
“Kwanzan” Flowering Cherry

Hardiest of the double-flowering Cherries. Symmetrical, vase-shaped form needs room to grow. “Kwanzan” has deep pink, double flowers.
**Prunus serrulata “Royal Burgundy”**

“**Royal Burgundy” Flowering Cherry**

[20’ x 15’] Zone 5

A branch sport of “Kwanzan” with reddish-purple foliage and double, deep pink flowers. This upright vase-shaped tree has reddish-orange foliage in the Fall.

![Umbrella Tree](image)

**Prunus serrulata “Snowgoose”**

“**Snowgoose” Flowering Cherry**

[20’ x 20’] Zone 5

Upright and oval-rounded when young. Shows white flowers sometimes before the green foliage appears. This plant seems more pest-resistant than the others.

![Umbrella Tree](image)

**Prunus subhirtella var. “Autumnalis”**

**Autumn Flowering Higan Cherry**

[25’ x 20’] Zone 4

This unusual Cherry begins blooming in November. Its white flowers will open sporadically through Winter on warm days, and will open fully in Spring. Its form is similar to “Kwanzan.”

![Umbrella Tree](image)

**Prunus subhirtella var. pendula**

**Weeping Higan Cherry**

[25’ x 25’] Zone 5

This graceful plant is most often used as a specimen. Single pink flowers come out in March to April, before the foliage.

![Umbrella Tree](image)

**Prunus x “Snowfozam”**

“**Snow Fountains®” Weeping Cherry**

[12’ x 12’] Zone 5

A graceful, weeping Cherry with white flowers. This variety is much smaller in form than other weeping Cherries.

![Umbrella Tree](image)

**Prunus x cistena**

**Purpleleaf Sand Cherry**

[10’ x 6’] Zone 2

One of the hardiest in the genus, this large shrub produces a profusion of delicate pink flowers along bare, purple stems in early Spring. Maroon foliage holds its color throughout the Summer.

![Umbrella Tree](image)
Prunus x yedoensis
**Yoshino Flowering Cherry**

[35' x 35'] Zone 5

Fragrant, single flowers in Spring, changing from pink to white. Rounded, spreading habit of growth. This plant comprises the famous cherry planting along the Tidal Basin in Washington, D. C.

---

Prunus x yedoensis “Akebono”
**“Akebono” Yoshino Cherry**

[25' x 25'] Zone 5

Dark green, glossy leaves that yellow in Fall. The flowers on the “Akebono” Cherry are a delicate pink. The habit is typical Yoshino, upright and spreading.

---

Pyracantha x “Lowboy”
**“Lowboy” Firethorn**

[3’ x 6’] Zone 5

Hardy, low-growing evergreen plant with masses of orange berries in the Fall.

---

Pyracantha x “Mohave”
**“Mohave” Firethorn**

[9’ x 12’] Zone 6

Large, vigorous, flowering evergreen shrub. Good as a barrier plant or displayed against walls or a trellis. Orange-red berries appear in late Summer.

---

Pyracantha x “Rutgers”
**“Rutgers” Firethorn**

[3’ x 6’] Zone 5

Glossy, dark green leaves with abundant orange-red berries. Very compact with good disease resistance.

---

Pyrus calleryana “Chanticleer”
**“Chanticleer” or Cleveland Select Pear**

[35’ x 15’] Zone 5

This plant is best known for its upright form and bright purple Fall color. A good flowering tree to use where space is at a premium, or where vertical accent is needed. “Cleveland Select” and “Chanticleer” are said to be identical.
**Quercus alba**
**White Oak**

Slow-growing, native tree with a round to wide-spreading irregular crown. Deep red Fall color, leaves do not persist. Prefers moist, well-drained soils.

**Quercus bicolor**
**Swamp White Oak**

An attractive tree that is smaller in scale than White Oak. Exfoliating bark provides Winter interest. Fine for wet sites.

**Quercus coccinea**
**Scarlet Oak**

Habit is similar to Pin Oak, but becomes more rounded and open. Excellent, glossy, dark green foliage changing to scarlet in Fall.

**Quercus macrocarpa**
**Bur Oak**

One of our largest and longest-lived hardwood trees with a massive trunk, short branches and a large, round crown. Fruit is a large, nearly-round acorn enclosed half or more by a large fringed cup.

**Quercus palustris**
**Pin Oak**

The most extensively planted Oak. Uniform, pyramidal grower. Large, glossy, green leaves turning red in Fall.

**Quercus palustris “Pringreen”**
**Green Pillar® Pin Oak**

(P.P. 9093) Columnar form of Pin Oak. Dark green leaves turning maroon-red in the Fall. A very narrow and uniformly-branched tree.
Quercus phellos  
**Willow Oak**  
[60' x 40'] Zone 5

A stately, pyramidal tree of fine texture, with willow-like leaves, good for filtered shade. Tolerant of wet areas. Spring transplanting recommended.

---

Quercus robur “Heritage®”  
**Clemons English Oak**  
[50' x 40'] Zone 5

Maintains central leader and develops a dense, broadly pyramidal crown. Dark green, leathery, tatter-resistant foliage. Highly resistant to mildew.

---

Quercus rubra (borealis)  
**Northern Red Oak**  
[75' x 75'] Zone 4

A large, popular shade tree with dense foliage that turns red in Fall. One of the fastest growing Oaks. Spring transplanting recommended.

---

Quercus shumardii  
**Shumard Oak**  
[50' x 40'] Zone 5

Upright, spreading shade tree which forms an open, broadly-oval canopy. Foliage is lustrous dark green with a red Fall color. This tree will withstand diverse conditions, from drought to moist soils.

---

Quercus x “Long”  
**Regal Prince® Oak**  
[50' x 15'] Zone 4

Strong, upright, oval silhouette similar in shape to “Bowhall” Red Maple. Leaves are bold dark green with somewhat glossy upper surface. This hybrid between Q. robur “Fastigiata” and Q. bicolor is highly resistant to Powdery Mildew and Borers.

---

Rhododendron “Lee’s Dark Purple”  
**“Lee’s Dark Purple” Rhododendron**  
[6' x 6'] Zone 5

Very hardy, compact shrub valued for its very dark purple buds opening to large trusses of violet-purple flowers in late May. Dark green leaves have textured, wavy edges.
Rhododendron arborescens

*Sweet or Smooth Azalea*

[10’ x 10’] Zone 4

White to blush-pink flowers with red stamens. Highly fragrant. Blooms in late Spring to early Summer. Usually found growing near streams and moist areas.

**Rhododendron calendulaceum**

*Flame Azalea*

[10’ x 8’] Zone 5

Flowers can vary from yellow to blood red but are usually bright orange in May-June.

**Rhododendron canescens**

*Piedmont Azalea*

[10’ x 8’] Zone 5

Fragrant pink flowers from March to mid-April. This native Azalea is found along slopes and stream banks under high shade.

**Rhododendron catawbiense “Album”**

*“Album” Hybrid Rhododendron*

[6’ x 6’] Zone 4

Very hardy, medium-sized plant with pure white flowers.

**Rhododendron catawbiense “Boursault”**

*“Boursault” Hybrid Rhododendron*

[6’ x 6’] Zone 4

Moderate grower with rose-lilac flowers; partial sun.

**Rhododendron catawbiense “Cheer”**

*“Cheer” Hybrid Rhododendron*

[5’ x 5’] Zone 5

Pink buds burst open to display distinctive shell pink flowers with red blotch at the first sign of Spring. This early bloomer has a dense, mounded habit.
Rhododendron catawbiense "Nova Zembla"

"Nova Zembla" Hybrid Rhododendron

Very popular, heat-tolerant plant with dark red blossoms.

Rhododendron catawbiense "Purpureum Elegans"

"Purpureum Elegans" Hybrid Rhododendron

Dark blue-purple blooms in mid-season on hardy, vigorous, upright shrub.

Rhododendron catawbiense "Roseum Pink"

"Roseum Pink" Hybrid Rhododendron

Vigorous, medium-sized plant with clear pink flowers.

Rhododendron periclymenoides

Pinxterbloom Azalea

This deciduous native plant has fragrant, pink blossoms in April or early May. Adapts well to dry, sandy, rocky soils. It is stoloniferous and will grow in colonies.

Rhododendron viscosum

Swamp Azalea

White flowers with clove-like scent from mid-May to June. This native Azalea likes the wetlands but will grow in dryer locations.

Rhododendron x "Kabarett"

"Kabarett" Hybrid Rhododendron

Compact plant, purple-pink blossoms in mid-May; foliage is deep-green and shiny with reddish stems.
Rhododendron x P.J.M. “Elite”

P.J.M. “Elite” Hybrid Rhododendron

[4’ x 5’] Zone 4

Compact, early lavender blooms, although later than other P.J.M.’s. Mahogany Winter foliage.

Rhus aromatica

Fragrant Sumac

[6’ x 6’] Zone 3

In Spring, fragrant flowers appear before the foliage, which turns Fall colors of red, yellow and orange. The flower is a nectar source for adult butterflies. Colonizes to form thickets and looks best when planted en mass or in drift-like plantings as it occurs in nature. It is fast growing, generally pest and disease-free, and drought-tolerant.

Rhus aromatica “Gro-low”

“Gro-low” Sumac

[2’ x 6’] Zone 3

Tough ground cover for banks and areas of poor, dry soil. This deciduous shrub has glossy, green leaves with an excellent red Fall color.

Rosa “Meiboulka”

Oso Easy® Cherry Pie Rose

[3’ x 5’] Zone 4

(P.P. 19258) Large, single, candy apple red flowers. Glossy, highly disease-resistant foliage. A great low-maintenance plant for mass plantings.

Rosa “Radsunny”

Sunny Knock Out® Rose

[3’ x 4’] Zone 4

(P.P. 18562) Fragrant, bright yellow flowers mature to a cream color and are produced continuously and profusely. Resistant to Rust, Mildew and Black Spot.

Rosa “Radtko”

Red Double Knock Out® Rose

[3’ x 4’] Zone 4

(P.P. 16202) Carefree and disease resistant. Double red blossoms produced continuously throughout the Summer.

</table>
| Rosa “Radtkopink” | [3’ x 4’] | Zone 4 | Pink Double Knock Out® Rose  
(P.P. 18507) Pink double blooms from late Spring until Fall. Extremely hardy and drought tolerant. Same attributes as other Knock Out® Roses. |
| Rosa “WEKcisbako” | [4’ x 4’] | Zone 4 | Home Run® Rose  
(P.P. 18552) The best true-red rose with continuous blooms and like its parent, Red Knock Out, top level disease resistance. |
| Rosa “WEKstephitsu” | [4’ x 3’] | Zone 5 | Outta The Blue™ Rose  
(P.P. 13449) Fully double, old fashioned, fragrant, 3” blooms (petals 40+) are bluish purple. Produced on a continually blooming plant with rich green foliage. |
| Rosa meigalpio “Red Drift®” | [1½’ x 2½’] | Zone 4 | “Red Drift®” Dwarf Shrub Rose  
(P.P. 17877) “Red Drift®” has the most petite flowers of all of the Drift® Roses. It is perfect for use in front of border plantings or draping naturally over a rock wall or edge. Great flower power and disease resistance. |
| Rosa meiggili “Peach Drift®” | [1½’ x 2½’] | Zone 4 | “Peach Drift®” Dwarf Shrub Rose  
(P.P. 18542) Soft peach blooms cover the plant from mid Spring to the first hard freeze of late Fall. “Peach Drift®” pairs well with existing perennials in any landscape. Exhibits strong disease resistance. |
| Salix babylonica | [40’ x 40’] | Zone 5 | Babylon Weeping Willow  
A graceful tree, with long pendulous branches, that loves wet sites. |
### Woody

</table>
**Woody**

Syringa patula “Miss Kim”

**“Miss Kim” Lilac**

[5’ x 4’] Zone 3

A hardy, dwarf Lilac with lavender-blue flowers. Dark green foliage turns burgundy-red in Fall.

---

Syringa reticulata “Ivory Silk”

**“Ivory Silk” Lilac**

[20’ x 15’] Zone 3

Lovely, small ornamental tree with prolific, fragrant panicles of white flowers blooming in early June. Can be successfully used as a specimen, street tree, or in groups.

---

Syringa vulgaris

**Common Purple Lilac**

[12’ x 10’] Zone 3

Fragrant, purple flowers in Spring. Works well in a shrub border or a fragrance garden.

---

Taxodium distichum

**Bald Cypress**

[70’ x 30’] Zone 4

A large, pyramidal, deciduous conifer sporting fern-like foliage and rough, reddish bark. Has a soft Summer texture, which contrasts sharply with its stark Winter appearance. Ideal for spacious, wet areas.

---

Taxus baccata “Repandens”

**Spreading English Yew**

[3’ x 12’] Zone 5

Very low-growing, dense, spreading yew. Valuable in foundation plantings. Will thrive in shade.

---

Taxus cuspidata “Capitata”

**Upright Japanese Yew**

[20’ x 10’] Zone 4

Upright, slow-growing, pyramidal form of Taxus cuspidata.

</tbody>
</table>
**Thuja occidentalis “Emerald”**  
**“Emerald” Green Arborvitae**  
[12’ x 4’] Zone 3

A shorter, more compact, pyramidal Arborvitae which holds its rich green foliage color throughout the Winter.

**Thuja occidentalis “Holmstrup”**  
**“Holmstrup” Arborvitae**  
[10’ x 3’] Zone 3

A compact, slow-growing, narrow pyramidal form with bright green, tight, bunchy, vertically arranged foliage which remains a rich deep green year round.

**Thuja occidentalis “Malonyana”**  
**“Malonyana” Arborvitae**  
[60’ x 15’] Zone 2

A fast-growing, evergreen conifer with neat dense foliage and upright habit and conical form. Prefers moist, acidic soil.

**Thuja occidentalis “Nigra”**  
**Dark American Arborvitae**  
[25’ x 5’] Zone 3

Fast-growing, fine-textured, upright evergreen; useful as a hedge, screening material, or a vertical accent in the landscape; broad at base, tapering to top.

**Thuja occidentalis “North Pole™”**  
**“North Pole™” Arborvitae**  
[10’ x 5’] Zone 3

(PPAF) Thuja “North Pole™” has beautiful dark green foliage, is resistant to Winter burn, and is a very hardy shrub.

**Thuja occidentalis “Umbraculifera”**  
**“Umbraculifera” Arborvitae**  
[2’ x 4’] Zone 3

A beautiful and very hardy dwarf cultivar of Arborvitae. Its low arching branches bear lacy sprays of thread-like needles, similar to Chamaecyparis pisifera “Filifera.” Useful as a specimen or accent plant.
Thuja occidentalis “Woodwardii”  
**Globe Arborvitae**  
[5’ x 6’] Zone 3

Dwarf, compact, globe-shaped plant. Popular with the home landscaper.

---

Thuja occidentalis “Techny”  
**“Techny” Arborvitae**  
[20’ x 6’] Zone 3

Broader and slower-growing plant than the species with darker green foliage.

---

Thuja plicata “Steeplechase”  
**“Steeplechase” Arborvitae**  
[35’ x 12’] Zone 5

(P.P. 16094) A denser, fuller sport of Green Giant that is more feathery and finely cut. Heat and drought tolerant. Deer resistant. Part shade to full sun.

---

Thuja x “Giganteoides”  
**Green Giant Arborvitae**  
[35’ x 12’] Zone 4

Extremely fast-growing evergreen that is ideal for a quick screen. Lustrous, rich, medium-green foliage and a broad pyramidal habit. A great alternative to Leyland Cypress.

---

Tilia americana “Redmond”  
**“Redmond” Linden**  
[70’ x 35’] Zone 3

A selection of the native American Basswood, selected for its uniform growth habit. An excellent shade tree that is tolerant of wet locations.

---

Tilia cordata “Greenspire®”  
**“Greenspire®” Linden**  
[40’ x 30’] Zone 3

A dense, symmetrical shade tree of European descent, useful in large areas or in street tree situations. Leathery foliage and fragrant, white flowers in Spring.

</tbody>
</table>
**Ulmus parvifolia “Allee®”**

**“Allee®” Elm**

Vase-shaped head with lustrous, dark green leaves. The bark exfoliates in a puzzle-like pattern. This tree will tolerate extreme conditions, making it well-suited for the urban environment. Highly resistant to Dutch Elm Disease and the Elm Leaf Beetle.

**Ulmus parvifolia “UPMTF”**

**“Bosque®” Elm**

(P.P. 11295) This fast-growing tree has a pyramidal form with a central, dominant leader. The lustrous, dark green leaves change to a yellow-orange in the Fall. Gray-orange exfoliating bark. Known to be drought tolerant.

**Vaccinium “Pink Lemonade”**

**“Pink Lemonade” Blueberry**

Hardy, vigorous, upright plants are covered with fragrant, pink-white flowers in May. Unique pink blueberries ripen in August. Orange-red Fall foliage.

**Vaccinium corymbosum “Patriot”**

**“Patriot” Highbush Blueberry**

This self-pollinating early season variety has large berries with strong flavor. It makes an excellent landscape shrub with arching red branches. Foliage is scarlet and orange in Fall.

**Viburnum carlesii**

**Koreanspice Viburnum**

Tight clusters of pink buds open to fragrant white flowers in April. Dense, rounded habit of growth.

**Viburnum davidii**

**David Viburnum**

Showy, mounding, evergreen shrub with glossy, dark green, deeply veined leaves. Small white flowers are followed by metallic-blue berries. Use this plant in the foundation, border, or as a low hedge. Likes full sun and acidic soil.
### Viburnum dentatum “Blue Muffin®”
**Blue Muffin® Arrowwood Viburnum**

[6’ x 4’] Zone 3

Outstanding rich blue berries follow the earlier white flowers on compact, durable shrubs perfectly suited to residential landscapes. Great as a low hedge or foundation planting. Salt tolerant.

### Viburnum dentatum “Synnestvedt”
**Chicago Lustre® Arrowood Viburnum**

[9’ x 8’] Zone 3

An introduction which exhibits all the excellent ornamental qualities of the species but is more compact and with glossier foliage. A beautiful addition to the shrub border or for use as a specimen.

### Viburnum nudum “Brandywine™”
**“Brandywine™” Viburnum**

[6’ x 6’] Zone 5

### Viburnum nudum “Winterthur”
**“Winterthur” Viburnum**

[6’ x 6’] Zone 5

Lustrous, deep green leaves change to a brilliant wine-red in the Fall. Creamy white flower clusters in June mature into showy fruit that changes from white to a pinkish-red and then to a bright blue.

### Viburnum opulus “Compactum”
**Compact European Cranberry Bush**

[5’ x 5’] Zone 3

A selected compact strain of Viburnum opulus. Single white flowers in April and May followed by showy, scarlet fruit which hangs on until Spring. Excellent in mass plantings.

### Viburnum plicatum “Popcorn”
**“Popcorn” Snowball Viburnum**

[6’ x 6’] Zone 5

Small, round, popcorn balls of white flowers line every branch. Much more compact than Japanese Snowball Viburnum.
### Viburnum plicatum “Triumph”

**“Triumph” Viburnum**

<table>
<thead>
<tr>
<th>[5’ x 6’] Zone 4</th>
</tr>
</thead>
</table>

Exhibits a dense, compact, rounded form with thick, quilted, dark green foliage that turns burgundy in Fall. Blooms heavily with snowball-like flowers. Strong, vigorous growth habit.

### Viburnum plicatum var. tomentosum “Mariesii”

**Maries Doublefile Viburnum**

<table>
<thead>
<tr>
<th>[8’ x 9’] Zone 5</th>
</tr>
</thead>
</table>

A viburnum plicatum tomentosum variety, with larger flowers, foliage that appears glossier, and perhaps a slightly more upright growth habit.

### Viburnum plicatum var. tomentosum “Shasta”

**“Shasta” Doublefile Viburnum**

<table>
<thead>
<tr>
<th>[6’ x 10’] Zone 5</th>
</tr>
</thead>
</table>

A broad, horizontally-branched deciduous shrub with large lacecap flowers and large sterile marginal florets. Bright red fruit and reddish-purple foliage in Fall.

### Viburnum prunifolium

**Blackhaw Viburnum**

<table>
<thead>
<tr>
<th>[15’ x 12’] Zone 3</th>
</tr>
</thead>
</table>

Dark green foliage changing to dark purple-red in Fall. White flowers in May, 2 - 4” flat-topped cymes. Adaptable to many soil types.

### Viburnum rhytidophyllum

**Leatherleaf Viburnum**

<table>
<thead>
<tr>
<th>[12’ x 12’] Zone 5</th>
</tr>
</thead>
</table>

Semi-evergreen shrub which lends itself well to massing because of its coarse, leathery foliage. Tolerates full sun to partial shade, and really looks its best by mid-Summer.

### Viburnum setigerum

**Tea Viburnum**

<table>
<thead>
<tr>
<th>[10’ x 7’] Zone 5</th>
</tr>
</thead>
</table>

This shrub has outstanding bright red fruit, ½” long, from late September to late Fall. Soft blue-green foliage with white, flat-topped cymes in late May. Great for shrub borders.

</tbody>
</table>
Viburnum x rhytidophylloides “Alleghany”  [12’ x 12’] Zone 5
“Alleghany” Viburnum

Very popular selection for its rapid growth and resistance to leaf spots. This selection has large, semi-evergreen foliage with creamy-white flowers in May and red fruit in late Summer.

Weigela “Merlot Pink”  [2’ x 3’] Zone 5
“Merlot Pink” Weigela

(P.P. 21763) Richly hued rose flowers on dark silver-bronze foliage. Very compact plant for a low-maintenance garden solution. Flowers all Summer long.

Weigela “Merlot Rose”  [2½’ x 3’] Zone 5
“Merlot Rose” Weigela

(P.P. 21725) Richly hued merlot rose flowers on dark bronze foliage. Very compact plant for a low-maintenance garden solution. Flowers all Summer long.

Weigela “Wings of Fire”  [3’ x 3’] Zone 4
“Wings of Fire” Weigela

(P.P. 21920) The wide leaves wing out in pairs, starting with a faint flush of pinky red in Spring, gradually turning more red until, by late Summer, they are a fiery red. By Fall, they have turned a beautiful wine red. Cool pink flowers in early Summer.

Weigela florida “Brigela”  [6’ x 4’] Zone 4
French Lace™ Weigela

(P.P. 12666) Striking lime-yellow leaf margins on green leaves provide a dramatic backdrop for the deep crimson flowers. Foliage has orange and red overtones in Fall. Available in tree form.

Weigela florida “Dark Horse”  [3’ x 3’] Zone 4
“Dark Horse” Weigela

This deciduous shrub has magenta-pink flowers contrasting against bronze leaves with lime-green venation; compact plant good in small gardens; full sun.
Weigela florida “Minuet”  
**“Minuet” Weigela**  
[3’ x 3’] Zone 4

Hardy, dwarf variety. Green tinged, purple leaves. Produces a profusion of slightly fragrant flowers that are purplish-red with a yellow throat. Attracts bees, butterflies and birds. Full sun to partial shade.

Weigela florida “Plangen”  
**Pink Poppet Weigela**  
[2’ x 3’] Zone 4

A dwarf, rounded, deciduous shrub with dark green, serrated leaves. In Spring it has light pink tubular flowers, usually repeating again in late Summer.

Weigela florida “Tango”  
**“Tango” Weigela**  
[2½’ x 3’] Zone 4

Compact, bushy habit with standout purple foliage; red flowers with a yellow throat contrast nicely with the foliage; full sun.

Weigela florida “Wine and Roses®”  
**“Wine and Roses®” Weigela**  
[4’ x 5’] Zone 5

This shrub is compact in size and has flowers that are hot pink with leaves of burgundy-purple; very appealing container plant.

Xanthorhiza Simplicissima  
**Yellowroot**  
[2’ x 2’] Zone 3

A fairly common small sub-shrub that grows in suckering thickets along shady streamsides. Purple blossoms are near the top of the unbranched stems. Shrub yellowroot gets its name from the yellow interior of the roots and stem.

Zelkova serrata “Green Vase”  
**“Green Vase” Zelkova**  
[65’ x 45’] Zone 5

An attractive, high-branched, tightly vase-shaped selection. Excellent as a city street tree because of this form. The fastest-growing Zelkova we offer.
Zelkova serrata “Musashino”  
“Musashino” Columnar Zelkova  
[45’ x 15’] Zone 5

Ideal for narrow street use, the Musashino Zelkova allows good vehicle and pedestrian clearance beneath its green canopy.

Zelkova serrata “Village Green”  
“Village Green” Zelkova  
[55’ x 45’] Zone 5

This Zelkova was selected for its straight trunk; broad, cascading head; and wine-red Fall color. Again, very popular with cities and municipalities.
### Perennials

#### Achillea millefolium “Summer Berries”
**“Summer Berries” Yarrow**

[2’] Zone 3

Finely textured, fern-like gray-green foliage makes an excellent foil for the tall heads of red, cerise and pink colored flowers. A proven performer in hot, dry situations with poor soil. Flowers can be dried.

#### Aster divaricatus “Eastern Star”
**“Eastern Star” Aster**

[18”] Zone 3

Deep dark shining mahogany stems provide a stunning contrast to its white star-like flowers in late summer. Drought resistant.

#### Aster x dumosus “Alert”
**“Alert” Aster**

[18”] Zone 4

Compact growth habit with reddish-purple flowers; profuse bloomer from late Summer to mid-Fall.

#### Astilbe chinensis “Visions”
**“Visions” Astilbe**

[12” - 14”] Zone 4

Sweet-scented, raspberry-red blooms with ground-hugging foliage blooming in early to mid-Summer.

#### Astilbe japonica “Deutschland”
**“Deutschland” Astilbe**

[18” - 24”] Zone 4

Clump-forming, shady perennial. Feathery white blooms in mid-to-late Summer.

#### Astilbe japonica “Peach Blossom”
**“Peach Blossom” Astilbe**

[20” - 24”] Zone 4

Attractive all season. Airy plumes of salmon-pink move with the slightest breeze during June and July.

</thead>
</table>
| **Astilbe x arendssii “Fanal”**  
**“Fanal” Astilbe**  
[24"] Zone 4  
Striking, deep blood-red plumes are accented by deep green to bronze-green foliage, blooms late Spring through early Summer. |
| **Astilbe Younique “Lilac™”**  
**Younique “Lilac™” Astilbe**  
[16"] Zone 4  
(P.P. 19847) A low mound of lacy green foliage, topped by large branching flower heads in a beautiful lilac shade. |
| **Astilbe Younique “Silvery Pink™”**  
**Younique “Silvery Pink™” Astilbe**  
[16"] Zone 4  
(P.P. 20656) Compact foliage topped with airy but full, light pink flowers in early to mid-summer. Lightly fragrant. |
| **Astilbe Younique “White™”**  
**Younique “White™” Astilbe**  
[16"] Zone 4  
(P.P. 19845) Compact habit with triangular plumes of fragrant white flowers in early Summer. |
| **Coreopsis verticillata “Moonbeam”**  
**“Moonbeam” Tickseed**  
[24"] Zone 4  
Sports creamy-yellow flowers atop a dense mound of lacy, finely-cut foliage; an excellent plant for dry sites. |
| **Coreopsis verticillata “Zagreb”**  
**“Zagreb” Tickseed**  
[24"] Zone 4  
Flowers are a deeper yellow than “Moonbeam”; fern-like green foliage is compact and bushy. |
Coreopsis x “Full Moon”
“Full Moon” Tickseed

(PPAF) Huge 3” yellow flowers from July to frost. A vigorous plant that takes on the heat of Summer and the cold of early Fall.

Dianthus “Double Starlette”
“Double Starlette” Border Pinks

(P.P. 21438) This British selection, from the Double Star series, forms a low, grassy, cushion of gray-green leaves, bearing upright stems of double, deep raspberry-pink, frilled flowers that have a darker raspberry-pink eye and a spicy clove fragrance.

Dianthus “Raspberry Surprise”
“Raspberry Surprise” Garden Pinks

(P.P. 16029) The mounding, blue-green, evergreen foliage on “Raspberry Surprise” makes a great groundcover in borders and edging. It is extremely floriferous with dazzling double pink, scented blooms with a burgundy center in Spring.

Echinacea “Pow Wow” Wild Berry
“Pow Wow” Wild Berry Purple Coneflower

Breathtaking, fade-proof rosy-purple flowers from early summer right into fall, without deadheading! This award winning plant remains compact and tidy. Drought tolerant once established.

Echinacea purpurea “Magnus”
“Magnus” Coneflower

Rose-purple flower with a rust-colored center; blooms from mid-Summer to early Fall.

Echinacea purpurea “Ruby Star”
“Ruby Star” Coneflower

Carmine-red petals with orange-brown central cone; blooms from mid-Summer to early Fall.
### Echinacea purpurea “White Swan”
**“White Swan” Coneflower**

White petals with brown central cones; blooms from mid-to-late Summer.

**Perennials**

Hemerocallis “Pardon Me”  
“Pardon Me” Daylily  
[18” - 20”] Zone 3
The flowers are a deep-red accented with a yellow throat; this variety is a repeat bloomer that blooms mid-to-late season.

Hemerocallis “Purple Bicolor”  
“Purple Bicolor” Daylily  
[20” - 24”] Zone 3
A mid-season variety that has light purple flowers with dark purple centers.

Hemerocallis “Purple d’Oro”  
“Purple d’Oro” Daylily  
[18” x 18”] Zone 3
This is a purple-flowered version of the popular yellow-flowered “Stella d’Oro.” Repeat blooms throughout the growing season, typically from May through Summer.

Hemerocallis “Red Volunteer”  
“Red Volunteer” Daylily  
[30”] Zone 4
Large, 7”, velvety-red flowers and golden yellow throat. Repeat bloomer mid-season.

Hemerocallis “Stella d’Oro”  
“Stella d’Oro” Daylily  
[10” - 12”] Zone 3
A tremendously popular dwarf, golden-flowered selection which features continuous blooming until frost.

Hemerocallis “Strawberry Candy”  
“Strawberry Candy” Daylily  
[24”] Zone 3
Large, strawberry-pink flowers with a deep rose eye and a yellow-green throat. Repeat bloomer.
Heuchera micrantha “Palace Purple”  [18” X 15’] Zone 4

“Palace Purple” Coral Bells

A low mound of maple-shaped leaves, from bronzy-green to rich purple-red. Spikes of small creamy-white flowers appear in early Summer.

Heuchera “Plum Pudding”  [8” x 12’] Zone 4

“Plum Pudding” Coral Bells

Stunning foliage in deep plum purple with even darker veins. Exceptional growth habit. Dainty white flowers reach 26” in early Summer.

Heuchera x “Silver Scrolls”  [12’ x 12’] Zone 4

“Silver Scrolls” Coral Bells

(P.P. 12066)  Unique plum and silver foliage with deep purple veins, which mature to green. Sprays of white bell flowers in Spring.

Hosta fortunei “Francee”  [18’ x 36’] Zone 3

“Francee” Hosta

Elegant, heart-shaped leaves that feature narrow, clean white margins. Does well in sun or partial shade. Lavender flowers in July-August.

Hosta “Big Daddy”  [2’ x 3’] Zone 3

“Big Daddy” Hosta

One of the best big blue hostas. Heavily corrugated, rich chalky blue-green leaves are rounded, cupped and puckered at maturity. Near white flowers.

Hosta “Gypsy Rose”  [15’ x 20’] Zone 4

“Gypsy Rose” Hosta

The leaves have dark green margins, light green centers with a thin, white line in between. The leaf center will turn bright yellow by late Summer.

**Perennials**

“Elegans” Hosta

“Roanoke’s Choice” Siberian Iris

“Ruffled Velvet” Siberian Iris
**Perennials**

**Iris sibirica “Snow Queen”**

“Snow Queen” Siberian Iris [30” x 30”] Zone 3

Elegant white flowers on long graceful stems in June.

**Iris sibirica “Sparkling Rose”**

“Sparkling Rose” Siberian Iris [32”] Zone 3

Lovely, rosy-pink blossoms with blue overtones and yellow base to each fall.

**Ligularia dentata “Othello”**

Golden Ray [3’ x 3’] Zone 4

Orange-yellow daisy-like flowers in Summer above layers of long-stemmed, coarsely toothed, round foliage. Good for wetlands or shady moist borders.

**Monarda Didyma**

Blue Stocking Bee Balm [2’] Zone 4

Purple-blue flowers appear in July over the fragrant foliage that is scented of bergamot. Colonizes easily.

**Papaver orientale “Patty’s Plum”**

“Patty’s Plum” Oriental Poppy [30”] Zone 3

This poppy’s unique blooms are plum purple with deep centers.

**Papaver orientale “Royal Wedding”**

“Royal Wedding” Oriental Poppy [30”] Zone 3

This is the white Poppy to top them all. Each enormous, pure white bloom is accentuated by a deep black eye and framed by large, textured foliage.
### Papaver orientale “Turkenlouis”
#### “Turkenlouis” Oriental Poppy

Huge, orange-red blooms, with their frilly, fingered petals, glow like hot coals, igniting the landscape as Spring turns to Summer.

### Perovskia atriplicifolia “Superba”
#### “Superba” Russian Sage

Fragrant, gray-green leaves and lavender-blue blooms on gray-white stems. Blooms August - October.

### Polygonatum odoratum “Variegatum”
#### Variegated Solomon’s Seal

Arching form. Mid-green leaves with creamy edges and pale green streaks. Tubular white flowers in Spring.

### Rudbeckia fulgida speciosa “Goldsturm”
#### “Goldsturm” Black Eyed Susan

Rudbeckia is drought tolerant and very showy in flower. The blossom is a beautiful golden-yellow.

### Salvia nemorosa “East Friesland”
#### “East Friesland” Meadow Sage

### Salvia nemorosa “May Night”
#### “May Night” Meadow Sage

Violet-blue spikes with gray-green foliage blooming from late Spring to mid-Summer.

</tbody>
</table>
**Ornamental Grasses**

**Saccharum ravennae**  
**Ravenna Grass**  
[14’ x 6’] Zone 5  
Large scale specimen which requires full sun and well-drained soil; usually used in substitution for Pampas Grass, though its plumes are not as broad.

**Sporobolus heterolepis**  
**Prairie Dropseed**  
[2’ x 2’] Zone 3  
This clump-forming prairie grass features fine-textured, hair-like, medium green leaves that grow in arching foliage mounds. Foliage turns copper-gold in Fall, gradually fading to light beige by winter. Late summer flowers bloom in airy panicles above the foliage and are noted for their coriander-like fragrance.
Ferns

Adiantum pedatum
Northern Maidenhair or Five-fingered Fern [18”] Zone 3
Delicate fronds, with dark, shiny stems, spread their pinnae horizontally in a nearly perfect circle. This graceful, fan-like pattern is unique among native ferns. Burgundy-red fiddleheads appear in early spring.

Athyrium filix-femina
Tatting Fern [12” x 12’] Zone 4
Nicknamed for the most distinctive round lobes along each stem. Said to resemble handmade lace.

Athyrium “Lady in Red”
“Lady in Red” Fern [18”] Zone 4
Lacy, light green foliage is held on vividly-contrasting red-violet stems.

Cyrtomium falcatum
Japanese Holly Fern [2’ x 2’] Zone 6
Forms a rounded mound with spreading, glossy, dark green fronds reaching a length of 8 - 24”. This fern has holly-like pinnae and sori scattered over the underside of the pinnae.

Dryopteris erythrosora “Brilliance”
“Brilliance” Autumn Fern [12” x 24”] Zone 5
A more colorful form of the ever-popular Autumn Fern. Young fronds are lustrous and have an orange-coppery pink color. The fronds, at maturity, turn green and retain the glossy sheen.

Dryopteris filix-mas
Male Fern [2’] Zone 4
A robust deciduous fern forming a shuttlecock-like tuft of lance-shaped, bipinnatifid fronds.
### Ferns

</tr>
</tbody>
</table>
**Ground Covers**

**Liriope muscari “Variegata”**  
**Variegated Liriope**  
[12”] Zone 5

Leaves are dark green with bold, variegated edges. More compact than the species in growth habit.

**Pachysandra terminalis**  
**Japanese Spurge**  
[6” - 12”] Zone 4

Foliage is rich and succulent. When in flower, it reminds one of Pieris japonica. It performs well if given the shade and moist, acidic soil it wants.

**Sarcococca humilis “Sarsid 1”**  
**Sweetbox**  
[18” x 3’] Zone 6

(P.P. 19942) A spreading evergreen groundcover that sports clusters of small white flowers that despite their size, pack a punch in fragrance late Winter to early Spring.

**Vinca minor**  
**Periwinkle**  
[3” - 6”] Zone 3

Trailing, evergreen ground cover. It is tolerant of some sunshine. Bright blue Spring flowers make this plant popular.
